GOOD NEWS FROM THE STRAITS.

MACKINAC, March 21, 1860.

Editors Press and Tribune:

The weather here is very fine,—mild and pleasant, and the ice has gone off as far west as five miles west of McGulpin's Point. There is, however, a large quantity of ice off the Beaver Island; but I think this will be gone by the 1st to 5th of April. J. O.

WELL DONE, CONNECTICUT.

The Republicans have carried Connecticut, after a struggle of unexampled fury and bitterness, by a small but decisive majority. The Governor is their's, the Legislature is their's in both its branches, and the United States Senator, the centre-figure in the contest, is their's beyond any possible contingency. It is a glorious triumph! Never have the Sham Democracy put forth such an effort; and never since the days of the Revolution when their principles were met by powder and ball, have they encountered such determined and unflinching foes. The contiguity of the State to New York; the influence of the Cottonocracy and money of that great city; the peculiar character of Connecticut industry and the dependence, to a certain degree, of her manufacturers, on a Southern market; the effect of the John Brown raid; the assumed popularity of the pro-slavery candidate; the superhuman exertions and loud boasting of the enemy; the lavish use of the pecuniary argument, which was addressed to every man who would listen to its seductions—all these made Republicans outside of the State apprehensive of a disastrous result.

In Revolutionary days, the men of Connecticut used to strip their beds of necessary blankets that the army of patriots might be clothed, to divide their flocks and herds that they might be fed, to grudge no sacrifice, labor, hardship or privation, that the cause of Liberty might be advanced. Her sons flocked to the Revolutionary standard in such numbers that scarce enough were left at home to till the soil; and they fought with such bravery that their blood moistened every field in which the opposing forces met. Then, as now, New York was the head-quarters of the aristocratic, liberty-opposing influence by which the country was pervaded. Then, as now, the contest was waged for the maintenance of those fundamental principles of liberty and equality—"those glittering and sounding generalities"—without which all governments are necessarily and hopelessly oppressive and despotic. Republicans ought to have remembered these things—ought to have known that the heroism and nobility of a people like that which fought that great battle, could not have died out in the generations which have gone by since liberty was won—ought to have been assured that as Connecticut resisted the money and arms of the royalists in 1776, she would resist the Slaveocracy of the same party in 1860. The only wonder is that the dead beneath her soil, who so loved freedom that they died in its behalf, did not turn in their graves, and cry out against the heresy that such modern Democrats as Caleb Cushing and Fernando Wood have preached since the campaign began.

Well done, Connecticut! In the general decadence of the age, from the old Revolutionary standard, it is hopeful to know that the Revolutionary blood is that which exalts, liberalizes, and honors that State!

RHODE ISLAND ELECTION.

Rhode Island votes to-day. We are apprehensive that the Republicans will be hard pressed, if not wholly defeated. A wide disaffection in our ranks, and the open union of the sham Democrats with the Know-Nothings, whose candidate for Governor they are supporting, make Republican success a thing to be hoped for, but, we fear, not seen. In Rhode Island, the influences which reduced the Republican majority in Connecticut to 571, are actively at work. The trade of the State is mainly with New York; and her manufacturers, following the worst instincts of capital, are in league with the money power and Cottonocracy of that city. They are turning the screws down upon the mechanics and operatives in their employ to such an extent that hundreds of poor men, with nothing but their labor to meet the demands of their children for bread, have been forced to choose between an abandonment of the Republican party and its glorious principles, and loss of a situation, with what result the canvass of the votes, to-night, will tell.

CHICAGO PRODUCE AND PROVISION TRADE.

The receipts and shipments of Produce, Live Stock, etc., during the past week will be found in the following comparative table:

The following table shows the amount of Flour and Grain in store in this city on Saturday last, compared with last year:

	March 31, 1860.	April 2, 1859.
Flour, bbls	26,945	38,298
Wheat, Spring, bu	446,283	297,355

Rye, bu	7,715	179
Barley, bu	16,022	64,612
Total Grain, bu	1,785,933	802,844

The Flour market during the week has been quiet, and prices are unchanged. Wheat has been in limited supply, and the market steady. The receipts of corn have also been comparatively light, and under a good demand for shipment by rail, as well as a limited speculative inquiry, the prices noted a week ago have been sustained, and the market closed firm. Oats have declined 2c, and close dull. Rye declined 1 and 2c. Barley steady, with a fair inquiry. Timothy seed is about 5c lower on the week. Hungarian Grass dull and 10c lower. Clover dull. Millet seed advanced 10c and scarce. Highwines quiet and unchanged. Provisions entirely nominal.

In lake freights there has been nothing done during the week, and the feeling among vessel owners is extremely dull.

The news received yesterday from the Straits was quite encouraging; and with good weather an early opening may be expected, if they are not now open. The propeller *Michigan* leaves this port for Lake Ontario on Saturday next, and we understand that there are others which will be ready to start soon after that date.

The Saut Canal.

During the past week or two the Detroit papers have been making statements to the effect that the repairs on St. Mary's Canal would be finished on or before the 15th of May. The following extract from a private letter, written by a reliable correspondent, gives the exact position of affairs:

SAULT STE. MARIE, March 12, 1860.

"The canal work progresses slowly. The tearing away of the slope wall, for laying up the old stone wall for the guard lock, is not yet finished on the river side. The south slope wall is not yet touched. Chapel is here, but he has no stone masons. He sent to Mackinaw for them, but the idea of sixty miles snow-shoeing was a little too much for them, and none came. The blasting out of the side wall at the old caisson gate is not yet done, and must be done before the water is let into the canal again. The lower gates have to be pumped out to repair the wickets at the bottom, and to repair the breast wall under the upper gates. You know some of that wall fell into the lock two years ago. After the slope wall at the new guard lock is removed, there is to be built the walls for the gates, some 70 feet long on each side, 17 feet high, and 12 to 16 feet thick, which cannot be commenced till warmer weather. A heavy job then remains, to get the huge guard lock gates into place. They are very heavy, and cannot be moved, except on rollers, then, with a heavy derrick ended up in place. I can see at least ten days' work in that alone. The foreman of the work, Mr. Chapel, insists that it will be done by May 15th; but I doubt his *sincerity* when he says so, and I am told that a day or two ago he said to one of his men (master mason) "We are one month behind time." I think, if everything goes as well as it can, with no accident, or unexpected delay, it will be June 1st before the Canal will be open (if the work proposed is done.) It may be five days sooner or later. Most of the people here think it will be July before a boat passes; but it is certain, as soon as masons can be got here on boats, the contractors will fill the Canal full of men, and do it as quick as can be. I think you will find my estimate pretty correct, from my knowledge of the time it took to do the same work when the Canal was made."

Under this state of affairs, it is highly probable that Chicago will receive the greater portion of the early orders for supplies from the Lake Superior counties, as the *Lady Elgin* is the only boat of any capacity on Lake Superior, and the propellor *Ontonagon* will run from this city to Sault St. Marie, in connection with her. Goods sent from Detroit, Cleveland, and other points, will have to wait and take its chances of being forwarded; while supplies from this city will be sent right through.

REPUBLICAN VICTORY IN STERLING, ILL.—NELSON MASON, Esq., Republican, was elected Mayor of Sterling, at the municipal election on Monday last, by 120 majority.

THE CITY.

Auction Sales this Morning.

Groceries, Teas, and Imported Havana Cigars, by Gilbert & Sampson, Auctioneers, 82 Lake street.

American and French Window Glass, Oil, Spirits Turpentine, Safe, Counters, &c., at 149 South Water street, Stafford & Smedley, Auctioneers.

☞ Attention is invited to the advertisement of A. A. Putnam, of the widely known Clothing House.

THE SAND BAR CASE.—The argument of Hon. Isaac N. Arnold in the United States District Court to-day will close the great Sand bar Case.

REMOVAL.—Miss Kate Cameron, teacher in Pencil Drawing and Painting, has removed from No. 75 Clark street to room No. 22 in Calhoun Building, on Clark near Washington street.

HORSE STOLEN.—A horse was stolen last night out of the barn in the rear of Mauran & Wright's store, belonging to Mr. Boone. The animal was of a black color, blind in one eye, and had a small star in his forehead.

THE CONNECTICUT MUTUAL.—It will be seen in another column, that the Connecticut Mutual Life Ins. Co. has recently declared a dividend to Life Policy holders of fifty per cent. This is one of the most reliable of the Life Ins. Companies extant; and with such dividends as it usually declares, the sum paid by the party insured is largely reduced.

NEW COMMISSION HOUSE.—We call the attention of our commercial readers to the business card of Philips, Brrother & Co., General Commission Merchants, No. 188 South Water street. The members of the firm have had many years' experience upon the Illinois River, and having done an extensive business are thoroughly posted in the commerce of the West. They are both prompt and entirely reliable, and we doubt not that all business committed to their care will be done to the entire satisfaction of their patrons.

NOTICE.—The regular annual sale and renting of pews in St. Pauls, First Universalist Church, for the coming year commencing April 1st, 1866, will take place at the church, corner Wabash avenue and Van Buren streets, to-morrow (Wednesday) evening, April 4th, at 7½ o'clock.

The church will be open during the afternoon, and the Trustees will be in attendance to give any information that may be desired to those who may wish to purchase or rent pews. A full attendance of all members and friends of the society is requested.

THE SUNDAY SCHOOL UNION MEETING AT METROPOLITAN HALL.—The Sunday School Union Meeting at the Metropolitan Hall last evening, filled that large audience room, and was a deeply interesting occasion. Five minute speeches were made by Superintendents and others in the Sunday School cause in this city, and, with scarcely an exception, these brief addresses were well chosen, varied, and admirable. This larger meeting, the largest of its class ever held here, will be the pioneer of others in kind, to follow it from time to time, as the spirit of last evening abundantly manifested.

HOUSE MOVING EXTRAORDINARY—MARINE ITEM.—We are a great people, and are coming to have considerable of a city. On Lake street a block of first-class business structures, three hundred feet long, is raised up to grade, and now we have to announce that we are actually *shipping off two-story dwellings to adjoining towns*. Fact, sir. The tugs Rumsey and Dime went down the South Branch yesterday bound for Bridgeport, having in tow a two story frame dwelling, taken from the corner of Kinzie and Dearborn streets, on the North Side, and placed on scows. It is a novel, but will be an entirely successful, feat. Will all the villagers on the canal and river take the hint and hurry in their orders? We will send them any number of wooden buildings we are proposing to replace with brick and marble. Who takes 'em? Who has 'em? Villages and country towns supplied.

SUNDRY MENTIONS.—A grand fair, festival and concert, to erect a new Magdalen Asylum, will be held in each of the Metropolitan, West, and North Market Halls, for two successive evenings, April 11th, 12th.... J. F. Dunlap and T. M. Wignall, two enterprising and worthy young men, have opened a news and stationery depot at No. 54 North Clark street.... The Accommodation Train, for Elgin, Geneva, etc., now leaves at 5.30 P. M.... The time made between Chicago and New Orleans is fifty-two hours, which will be reduced to forty-eight.... The annual sale and rental of pews at St. Pauls Church, (Universalist,) takes place this evening, at 7½ o'clock.... They are moving to extend the North Chicago City Railway to Lake View and Evanston and run the dummy locomotive in hourly trips.... Yesterday was mild and greatly encouraging to outside operations in the way of gardening, &c.... Read the report of the Gardener's discussion on Monday evening, to be found on the inside of this issue.... Light business in the Recorder's and Police Courts yesterday.... The country is needing rain, and farmers are beginning to complain.

INQUEST.

MOST SHOCKING CASUALTY.—On Monday a most heart-rending occurrence took place at No. 15 Superior street, resulting in the death of a little girl seven years of age named Mary Ann Smith. The mother went out on an errand, and left the deceased, with three younger children, at home. She had been absent but a few moments, when the neighbors came running after her, informing her that her child was burning up. She rushed back and found the little one wrapped in flames. With the assistance of the neighbors they carried her out doors, and succeeded in extinguishing the flames, but not until several of them had burned their hands severely in the attempt. Medical aid was summoned, but it was of no avail, and the little sufferer died during the night. Before her death the child stated that her little sister Ellen set her on fire by chasing her round the room with a lighted shaving. The jury of inquest returned a verdict in accordance with the facts.

ST. GEORGE'S SOCIETY.—The annual meeting of the St. George's Benevolent Association of Chicago, was held at their rooms Monday evening April 2d, when the following officers were elected for the ensuing year:

PRESIDENT.—Francis Hodson.
VICE-PRESIDENTS.—Wm. Holdsworth, Barnard Thomas.
TREASURER.—James Turner.
FINANCIAL SECRETARY.—Elias Cooke.
RECORDING SECRETARY.—Thos. E. Poulson.
VISITING COMMITTEE.—John Soper, C. Boorman, Edwin Walker.
TRUSTEES.—Benj. L. Anderson, James Boorman, Joseph Staines.

Two Hours at the County Poor House.

Having read and heard so many different opinions about that Institution, and happening last week to be near by at Mr. Rommeis', the late Warden's, farm, I obtained his company to visit the Poor House. In the absence of Mr. Chase, his lady gave us permission to look around.

I need not mention that the buildings are not in the best fix to accommodate from 300 to 400 persons, these being composed of insane, sick and poor—the latter part, of course, of the most degraded class. In the whole I found cleanliness prevailing, though I missed that neatness so common with other Institutions of that kind.

Entering a two story building, the dwelling of the most poor, I thought myself under deck of an Immigrant vessel, it being that same room saving double berth structures, which, it is known, cannot be kept free from the most molesting insects.

At the Insane department we were received by August Schraver, who has the special care of these helpless beings. We found him in an equally pitiable condition, he was—drunk. I have been witness of his most cruel treatment towards these unfortunates, and feel ashamed to say, this fellow is one of my countrymen.—Though being told that he is very useful and only rarely intoxicated, I still deem him unworthy of this situation, and his constant employment by the Supervisors not excusable. Having seen several good Insane Asylums in Germany, I was perplexed by the entire want of room conveniency and entertainment, although the Insane department of the Poor House not being intended a permanent asylum, as these unfortunates are either waiting a vacancy accruing in Jacksonville to be sent there, or they are such as came back from the State Insane Asylum as incurable.

Their present number is 40—I should think a sufficient number to make better arrangements necessary. Here Dr. Werler came in and kindly offered his company; he stated the number of his patients to be 35, that he had to visit them three times a week, to find all the medicine himself, for which he receives per year $500; his residence is four miles distant. At a late supervisors meeting a resolution was passed to invite the Dr. to move nearer the Poor House; if consented to, will this be sufficient? why not pay him reasonably and employ his whole time?

Does any one believe, besides the Supervisors, that when a physician furnishes the necessary medicine for about forty or fifty patients during a year, there will be anything left for his time and services? Either he has to deprive the sick of the medicine, or he has to work for nothing. In passing through the rooms of the sick females, the Doctor asked a girl laying in the bed, her eyes bandaged, to remove the cloth and open her eyes; she said she could not do it, it would pain her so much; he did it himself, much to the suffering of the poor girl. (The room had white walls, the windows no blinds or curtains.) The Doctor, inquiring now after her medicine, she said, "They gave me none." "Yes, yes," he explained to us, "she is one of those who are not pleasing others, therefore they neglect her. She has for years been afflicted with fits, and but shortly with acute inflammation of both eyes."

In the next room the Doctor called our attention to a young insane woman, being in pregnant condition, remarking sharply, "She is eighteen months in the house." "Who is the father?" asked Mr. Rommeis. "She does not know; she has intercourse with six or seven men," remarked Dr. Werler.

There is, further, a pitiable deficiency of necessary arrangements to employ the many idle hands of the poor sent out there daily. Getting food and clothing seems to be their only destination.

The farming part of that institution is in an equally lamentable condition. The land is of good quality, hands are plenty. Why do our Supervisors spare so greedily the money for rational improvements? Such would pay better than anything else, besides making that farm a pride of Cook county; but as it is now, this whole concern appears to me a very costly nuisance.

Eight days ago I gave the above observations in the *Staats Zeitung*—expecting our German supervisors would inquire about these matters and act accordingly. But as I found yesterday that Mr. Hansen, the County Agent, was not made acquainted with, I thought now to bring the above to the notice of the English press.

A. BORCHARDT,
President of the German Aid Society.

Meeting of the Board of Education.

CHICAGO, March 31, 1860.

Present—Messrs. Haven, Bass, Moseley, Hoard, Ward, Carpenter, Hayes, Foster, Newberry, Higginson, and Dore. Absent—Messrs. Porter, Sheahan, Taft, and Sturtevant.

The minutes of the last two meetings were read and approved.

On motion of Mr. Moseley, teacher's certificates were granted to the following applicants: Mary J. Coe, Amelia Cook, Emily B. Chapman, Laura C. Babcock, Eliza L. Goss, Harriet Truesdell, Ellen W. King and Achsa C. Mott.

The Committee on the Appointment of Teachers reported the following appointments since the last meeting of the Board: Miriam S. Sherman, transferred from the Jones to the Ogden School; Olive Backus, appointed assistant in the Primary Department of the Skinner School; Annie Trimmingham, appointed assistant in the Primary Department of the Skinner School; Kate Lonergan, appointed assistant in the Primary Department of the Kinzie School; Mary D. Moulton, transferred from the Jones to the Brown School; Lucy A. Williams, appointed assistant in the Primary Department of the Jones School; Eliza L. Goss, appointed assistant in the Primary Department of the Jones School.

The Committee on the examination of Teachers reported the following admissions to the Normal Department of the High School: Ella Clara Bradley and Emily B. Chapman.

The resignation of Martha J. Larson, assistant in the Franklin School, was received and accepted.

A report was presented by the Superintendent, showing that the number of pupils attending the public schools has increased more rapidly during the last two months than during any equal period before in the history of the city; that the number of pupils now enrolled in the schools is greater by 1,200 than the average number enrolled during the year 1859; and that the excess of pupils now in the schools, after allowing 60 for each of the teachers, is considerably over one thousand, requiring an increase of at least sixteen teachers to meet the present wants of the schools.

Mr. Hayes presented the following resolution:—

Resolved, That the Committee on School Buildings and grounds be directed to procure plans and specifications for a Schoolhouse, to cost, not exceeding $15,000, to be erected on the lot at the Northwest corner of Wabash Avenue and Twelfth street, and submit the same to the Board.

Concurred in.

The following report was presented by Mr. Higginson:

The Committee on Text Books to whom was referred the petition of D. B. Cooke & Co., and others in regard to the sale of books by the teachers of the schools in their pupils beg leave to report:

They would recommend the abolition of the sale of books by the teachers in those schools centrally situated—embracing the High School, Dearborn, Jones, Scammon, Skinner, Washington, Kinzie and Ogden; but that all the teachers of the Schools on the outskirts of the city, embracing the Moseley, Foster, Brown, No. 12, Franklin and Newberry, shall have the right to sell books to their own divisions until such time as stores, in which books are sold, shall be established in their vicinity.

On motion of Mr. Moseley, the consideration of the foregoing report was postponed.

On motion of Mr. Higginson, David A. Wells' Chemistry was adopted as a text book at the High School, in the place of Youman's.

Mr. Hoard, Committee on the Washington school, presented specimens of map drawing from all the pupils of the master's division in that school, for the inspection of the Board.

On motion of Mr. Dore, the Board adjourned to meet on Saturday, April 7th, at 3 o'clock P. M.

W. H. WELLS, Sec'y.

POLICE.

POLICE COURT REPORT—OFFICIAL.

Patrick Doyle, larceny, continued; John Hageman, do; Morris Williams, drunk and vagrancy, $3; Anastasia Welch, vagrancy, discharged; Michael Flanigan, drunk, special bail, N. Larsen, surety; Wm. Charlter, A. W. Clark, disorderly and vagrancy, special bail, John V. Eustace, surety; James Gillan, William Cordwell, selling liquor without license, $25 each; Wm. G. Cronkright, Patrick Keogh, disorderly, $2 each.

I hereby certify that the above is a true report of the trials and proceedings in the Police Court of the City of Chicago during Tuesday, April 3d, 1860.

N. LARSEN, Police Court Clerk.

THE NEW POLICE FORCE.—The newly enrolled Police numbers eighty-three men all told.

LARCENY.—On Monday night Patrick Doyle and J. Hagerman, two boys about 16 years of age, were arrested by Capt. Kennedy for stealing brass fixtures, the property of the Galena Railroad Company. The case was continued to procure absent witnesses.

Republican Club.

At a meeting of the Cameron and Lincoln Club, held in their hall, No. 205 Randolph street, on Friday the 31st March, 1860, the following officers were elected:

President—ALONZO HARVEY, Esq.

Vice-Presidents.

1st Ward—Joel Gurley and Judson N. Strong.
2d " —John S. Melville and John Lyle King.
3d " —Dr. S. C. Blake and D. C. Hawley.
4th " —John Raber and William Justice.
5th " —Sam'l McCotter and F. Fuhring.
6th " —George Coatsworth and Moses Gray.
7th " —Alex. Wolcott and P. G. Peterson.
8th " —Iver Lawson and Chas. J. Wilder.
9th " —John H. Kinzie and Dr. Crumbaugh.
10th " —H. B. Hogue and John Lobstein.

Secretary—J. W. Bell.
Treasurer—L. L. Bond.

Executive Committee—Fernando Jones, Dr. Charles V. Dyer, C. P. J. Arion, Noah Sturtevant, Calvin D'Wolf, Charles Leib, John A. Eastman, Dr. G. Paoli, William A. Baldwin, C. L. Jenks, Julian Kune.

J. W. BELL, Secretary.

Tree Murder.

Messrs. Editors:—I notice that the shade trees around Dearborn Park are having their life pressed out of them by the tightness of fit of the plank sidewalk surrounding their trunks. Will not you hint to our City Superintendent or other persons whose business it is to look after this matter, the necessity of cutting away the planks and giving the trees room to breathe and grow. They should have a space of at least four inches on each side, to allow of free growth and ventillation. RUS.

THE WIGWAM.—A subscription list for the above building, in addition to those heretofore named, has been left at the bank of J. M. Adsit, 39 Clark street, where funds may be subscribed and paid. The contract having been let, to be finished in about 30 days, the funds will soon be needed to pay the workmen.

C. N. HOLDEN,
Treas'r Building Committee.

HOME FOR THE FRIENDLESS.—The monthly meeting of the Board of Managers will be held at the Home this (Wednesday) afternoon at three o'clock.

As arrangements are to be made for an early removal to our new Home on Wabash avenue, a general attendance is requested.

E. F. DICKINSON, Sec'y.

☞ In another column Messrs. Hollister & Wilkins announce themselves ready for the Spring trade. See their advertisement.

A CARD.—At a meeting of the Faculty and Students of Bryant, Bell & Stratton's Commercial College, held on the third day of April, 1860, D. V. Bell stated the object of the meeting and offered the following resolutions, which were unanimously adopted:
Resolved, By the Principals, Teachers and Students of Bryant, Bell & Stratton's Commercial College of Chicago, that our most grateful thanks are due, and hereby tendered to the distinguished gentlemen who so generously participated in the delivery of the series of free lectures before the Institution during the past winter, which constituted one of the finest intellectual entertainments ever offered to our community, and elicited the highest encomiums of the public and the press.
Resolved, That we also make thankful acknowledgment of the favors conferred by the newspaper press of the city, in the gratuitous notices liberally bestowed upon the several lectures during the delivery of the course.
Resolved, That a copy of these proceedings be sent to the Rev. Dr. N. L. Rice, Rev. H. L. Hammond, Rev. Dr. J. C. Barrows, Rev. Louis Gano, Rev. Z. M. Humphrey, Professor J. V. Z. Blaney, Prof. E. E. Edwards, Prof. J. F. Eberhart, Prof. Henry Booth, and Messrs. I. N. Arnold, Wm. Matthews, Wm. Bross, U. F. Linder, and Wm. B. Ogden to whom for their kind and generous efforts in promoting the usefulness of our Institution, we are under the greatest obligation. ap4t1

IMPORTANT NOTICE
TO DEALERS IN
BOOTS AND SHOES.
The Celebrated Copper Toe!
BOSTON, March 29, 1860.
To Messrs. WADSWORTH & WELLS, Chicago, Ill.:
GENTLEMEN:—To correct an error which appears to exist among some parties dealing in Mitchell's Patent Metallic Tipped Boots and Shoes, we hereby state that we claim no right whatever to deal in said goods within the States of Iowa, Wisconsin and Minnesota. The exclusive right to deal in said Boots and Shoes in the above States having been sold by the patentees before we purchased the invention and patent of him.
Respectfully yours,
CHASE, McKINNEY & CO.

WADSWORTH & WELLS,
Wholesale Dealers in
BOOTS AND SHOES,
60 . . Lake Street . . 60
We own the exclusive right for the sale of
MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES,
for and within the States of Wisconsin, Iowa, and Minnesota, and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us and by our consent, are and will be direct infringers upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper and immediate redress.
We have made extensive arrangements with the most celebrated manufacturer whereby we can fully supply the increasing demand with the best qualities of these Tipped Boots and Shoes from our store in Chicago, each pair of which will be stamped or labelled with our name.
We shall recognize no Tipped goods within either the above States but such as are thus stamped and supplied by us.
We will warrant in all instances one pair of child's copper-tipped shoes to out wear two and oftentime three or four pairs of equal quality without tips, as can be shown by very many testimonials, while the expense is but a trifle more, making an actual average saving to the consumer of near two hundred per cent.
We also own the right (not exclusive) for the sale of these patented goods into all territory of the owners of the patent and are in no way subjected to a patent commission of five to seven and a half per cent. paid by all other dealers.
We particularly solicit the attention of dealers in these goods within the States of Illinois, Michigan and Indiana to our advantages under this patent, and the quality of our goods will be unsurpassed by any stock in the Union which we aim in quality considered, to offer at competing prices with goods without Tips.
We shall give undivided attention to this branch of our business in connection with our general stock, and respectfully solicit orders for our goods and due respect for our rights.
That dealers may not be misled by the advertisements of others in Chicago and elsewhere, outside the States of Wisconsin, Iowa, and Minnesota, who advertise themselves as agents for the sale of
MITCHELL'S PATENT METALLIC TIPPED GOODS,
we state that all such agencies do not extend to or in any way whatever appertain to the sale of said goods within the States of Wisconsin, Iowa and Minnesota.

Total assets			$3,370,001.87

The Directors have declared a dividend to the holders of Life Policies of 50 per cent.

In submitting the above report to the citizens of Chicago, attention is called to the fact that TWO MILLION, TWO HUNDRED SEVENTY SIX THOUSAND, SIXTY-ONE DOLLARS AND SEVENTY SEVEN CENTS, have been paid to the representatives of deceased members since 1846, while the Accumulated Fund now amounts to $3,370,001.87, and the income at the same time reaches nearly one million dollars per annum. The amount of insurance effected during the past year is $1,465,190.10, a fact to which we have much satisfaction in drawing attention, considering the adverse conditions carried on in business in all quarters. In submitting this report, we have the satisfaction of again claiming for the Connecticut Mutual, the highest place in public favor, whether that claim be based on the extent of business, which for many years it has transacted, or on the liberality of its dealings with the public, for it has not followed but led in the improvement of Life Insurance, again declaring FIFTY PER CENT. dividend. An "Connecticut Mutual" Policy may be truly said to be a contract affording the most perfect security, on the most liberal terms, protecting the dependent upon the husband or father in the fullest degree against poverty, when their support is removed by death. In calling attention to this subject, it is right to observe that the business of this Company is confined to the Northern States, where epidemics rarely prevail, a fact not to be lost sight of in comparing the amount of its business with that of other institutions. The business of the Company is of a choice class.

It is hoped that the amount of business transacted during the present year will exceed the best year of the Company's business heretofore, and all who are insured in the Company are mutually interested in its success, and may do much in furthering the noble progress it has achieved, and many a family will in years to come have reason to feel thankful to those who influenced their husbands and fathers to avail themselves of the advantages of the Connecticut Mutual Life Insurance Company.

The Lock-Stitch made by this machine is the only stitch that cannot be ravelled, and that presents the same appearance each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it. No family should be without this economical, time and labor-saving machine. It does the sewing of a family or manufacturer with strength and beauty, stitching the lightest or heaviest fabric, in the same time that ten seamstresses require to do the same by hand.
21,305 of these machines were sold in 1859. A printed Bill of Directions, illustrating the different parts, is sent with each machine, this is sufficiently explicit to show its use. All orders executed with care and promptitude. Machines when shipped are boxed with everything necessary to use them, and can be delivered by express (without injury) to any section of the country. Send for a Circular.

FILCHING TRADE MARKS.
Merchants of this and adjoining cities are cautioned against buying worthless imitation of Tobacco, put up by unprincipled second class manufacturers at Detroit and Louisville, and passed on the trade under our favorite marks. The principal brands of chewing and smoking are People's Choice, Dew Drop, Rose Bud, J. X. L., A. A., Ashland, A. D., E. B. &c. Dealers desiring the best goods may rely on our manufacturers, with such trade-marks, and also avoid being imposed upon by these counterfeits, by adopting their Miscellas, Miscellanies, XX or XXX marks. We never "stoop to conquer."

AN INQUIRY.

"Col." Colt, of Hartford, Conn., is the owner of a patent which has proved immensely valuable. The "Col." has made a fortune out of his lucky idea. He is rich, and is acting a good deal like other American fools of his kidney and calibre who have got more money than they know what to do with. But the "Col." is not satisfied. He wants more money for other antics. He wants his patent renewed. We observe that Senator Doolittle, of Wisconsin, has made a move in the Senate to gratify the "Col.'s" desire. Common report has it that, pending the recent election in Connecticut, "Col." Colt discharged from his factory a large number of men who would not be coaxed, bullied or licked into voting the pro-slavery ticket. "Col." Colt has a right to be a pro-slavery man. Colonels are pro-slavery men. But the "Col." has no right to be proscriptive. Will Senator Doolittle take the trouble to inquire if this report is true, before he goes any further? and while he is engaged in the business, will he not also inquire if the "Col." has not got as rich as any man ought to be for the service that he has rendered mankind, and if the public who have been pouring gold into "Col." Colt's pockets do not now deserve some consideration at the Senator's hands?

THE VOICE OF PENNSYLVANIA.

The Pittsburgh *Journal* notifies the delegates to the Chicago Convention that Pennsylvania and New Jersey will expect them not to ignore the questions affecting American industry when the Presidential issues are made up. It holds that the non-extension of slavery must still be the centre plank in the Republican platform, but that the other question cannot be blinked with safety—in other words, that Pennsylvania and New Jersey cannot be relied upon to give their electoral votes to the Republican nominees without satisfactory evidence of their devotion to the great industrial interests of the country on which those States are so largely dependent.

We presume there will be very little difference of opinion on this topic among the members of the Convention—that whatever difference shall be found to exist may be reduced to a unanimous agreement in favor of such a change in the revenue laws as shall arrest the alarming outflow of the precious metals and protect the manufacturer and the farmer alike. We hesitate not to say that we believe the interests of both are identical, and that both are greatly and deeply interested in such a development of American resources as shall bring the producer and consumer together, saving the cost of transportation to and from Europe of the products we have to sell and the merchandise we have to buy, and putting the country out of the reach of those fatal revulsions consequent upon the drain of gold and the sudden fluctuations in the prices of breadstuffs in the English markets. At the same time we are aware that the old party cries with which the Democracy assailed the Whig party during the term of its existence, will be raised upon us in the Western States with more or less effect, so soon as it shall be understood that we are committed to specific duties and adequate protection to the iron and other manufacturing interests of the country. If so it will be ours to show, with what success we may, that that policy is the best for the agricultural districts which creates a home market for the products of the soil, always to be depended upon and never subject to the contingencies of peace and war, plenty and famine, in the old world.

The temper of Pennsylvania, as regards this question, is not to be mistaken by any one who has visited that State since the commercial panic set in. We are quite prepared to believe that the nominees of the Chicago Convention will fare hardly in that quarter, without some guarantee of their heartfelt interest in the smothered forges and furnaces beyond the Alleghanies. Such being the case we may as well commence thinking about what we shall do in the premises. We can but think that the result of the deliberations in the Chicago Convention will be satisfactory alike to Pennsylvania and Illinois, to Massachusetts and Minnesota.

THE COMING FIGHT.

The ruffians of two of the most enlightened countries of the world are all agog in expectation of the coming fight between the Yankee Heenan and the Englishman Sayers; and the Press, not only of England, where the fight is to take place, but of America as well, is daily ministering to that depraved and bloodthirsty appetite which snatches with avidity the smallest fragment of intelligence concerning the training, bearing and hopes of the combatants. Measured by the column, the newspapers of the two countries have already devoted more space to the preliminary matters connected with the expected bloody and brutal exhibition, than they would have given to the discovery of a new Continent or a new system of philosophy; and the readers of these papers have been taught to talk more eloquently of the event to happen, than of any question of religion, patriotism, science, art or poetry by which their attention has ever been engaged. And so excited are men who ought at least to be decent, over the anticipated result, that they are risking money on their opinions of Sayers' muscle or Heenan's bone, that they would not part with to rescue a captive Saviour if he were now in his enemies' hands! Between the efforts of the New York dailies of the sensation school, to keep their readers up with the news, the artistic exploits of the illustrated weeklies, the superhuman exertions of doubtful sheets devoted to such civilizing matters as trotting and running matches, cock-fighting, rat-killing, billiard-playing, dove-shooting, and the "fancy" pursuits generally,—between efforts like these, and the talk of the public places, a stranger to the beauties of European society—some man just from the outside barbarians, among whom such beastly exhibitions would not be permitted—would believe that the contest for the championship or the belt, in which the pug-nosed, short-haired bullies are shortly to engage, was the great event of the era in which we live—superior to that mighty movement in Italy which promises to undo the work of eighteen centuries of barbarism, or that mightier movement in America which seeks to restrict, ameliorate and finally destroy the chattelhood of four millions of men.

It would be cruel to hope that both the ruffians may be mauled to death; but if either is permitted to escape the penalty which both will earn, we trust that, not Heenan, but Sayers, will be the victor and the survivor. We shudder to think of the consequences of an "American" triumph in that ring. With more imported vices already than our people can stagger under, and keep alive their reputation for civilization, the domestication among us of the brutalities of the prize fight, would be the weight under which the government of our large cities would give way. Hitherto the "manly art" has been nourished only as an exotic. Its hot-bed is New York, and the imported beasts, chiefly of the English breed, are the manure by which it is given the feeble life it has. Let Heenan win, and his imitators, each anxious for the distinguished honor of "shutting up the mug," "closing the peepers," or "punching the knowledge-box" of an opponent, amid the plaudits of a ruffianly crew of amateurs and bottle-holders, would be found in every considerable town in the land. We all remember what impetus was given to chess by the bloodless victories of Paul Morphy, and the honors which were heaped upon that very common place young man; we all saw the rise of the demand for more billiard tables, cues, chalk, brandy-smashes, whisky toddies, poor cigars and the "wee small hours," as soon as Phelan beat that other fellow, whose name we have forgotten, in punching ivory balls against each other and into pockets, in that Detroit grocery. But chess is innocent, if not intellectual, and the "fancy" wot not thereof; and Phelan's contest was not "national"—the reputation of the American eagle was not in any way mixed up in his victory. But Heenan! if he wins, the screams of the gel-o-ri-ous bird-o'-freedom will fill every slum, rum-shop, crib and bawdy-house in the land, and the army of muscle men will spread itself abroad, until the drill sergeants and corporals will be found wherever news of the "great American victory" makes its way.

THE NEW CALIFORNIA EXPRESS.

Our dispatches yesterday morning contained some important particulars in regard to the newly established letter and telegraph express to California. By this arrangement intelligence can be transmitted from any telegraph office in any of the Atlantic States to any California office in eight days and a half. Dispatches are sent by telegraph to St. Joseph, Mo., and thence by pony express to the nearest California office. To avoid mistakes, duplicate dispatches are sent by the express, and if they do not reach their destination ahead of every other route, the money is to be refunded. The charges are for a dispatch of ten words from St. Louis $5.30, and ten cents for every additional word; from New York and other seaboard cities $6.90 for the first ten words, and twenty cents for each additional word. Letters will be conveyed from St. Joseph to Salt Lake in a little more than five days, and to San Francisco in ten days.

The express is owned by Russell, Majors & Waddell, and though they will doubtless largely increase their already overgrown fortune by it, the country have reason to thank them for their enterprise in establishing the line. Whatever increases the communication between the Atlantic and Pacific States, and makes the transmission of intelligence more rapid, is a public benefit. It tends to bind these distant sections of the Union together, and to make us in every essential element one great and happy people.

The fact that the time between the Atlantic seaboard and California has been so materially lessened, will increase the pressure upon our tardy Representatives at Washington, to build or to secure the building of the Pacific Railroad at an early day. Its construction will be greatly facilitated, for stations are required all along the line, and very soon a cordon of towns will be stretched entirely across the continent.

From present indications a railroad up the Valley of the Platte to the base of the Rocky mountains will very soon become a commercial necessity. There is an abundance of capital now lying idle in the seaboard cities to build it as soon as it can be demonstrated that it will pay. A very few seasons more of prosperous mining at Pike's Peak will furnish that demonstration, and then croakers and fogyism may as well clear the track. The road will go through with a rush. Nor is the work so formidable that American energy and enterprise need shrink from the task. Stretch the line of the Illinois Central up the Valley of the Platte, and the thing is done.

In every view of the case, therefore, the "pony express" has our best wishes. We sincerely hope it will prove a triumphant success.

State Politics.

DOUGLAS COUNTY.—The Republicans of the new county of Douglas, erected by the division of Coles, held a Convention at Tuscola, on Thursday, the 29th ult.—J. T. Johnson, Chairman; I. J. Halsted, Secretary. The following persons were appointed delegates to the Decatur Convention: Caleb Garrett, I. S. Taylor, Wm. A. Lowe, E. McCarty, and M. F. Hackett. On motion of Hon. J. E. Wyche, the following resolution was passed by a unanimous vote:

Resolved, That the Republicans of Douglas county recognize in ABRAHAM LINCOLN a man who has arisen from the humblest walks in life, to be the peer of the great Statesmen of the age, and in the purity of his life and his enlarged national views, the Republicans of Douglas county recognize his fitness for the Presidential nomination, and our Delegates to Decatur are hereby instructed to use their efforts to secure the nomination of ABRAHAM LINCOLN, by the Convention to assemble at Chicago.

Among the reported resolutions constituting the platform of Douglas county were the following:

Resolved, That we pledge our lives, our fortunes, and our sacred honors, to preserve the integrity of the Union as our fathers made it, and the supremacy of the Constitution and the laws passed in pursuance thereof, against the conspiracy of the leaders of any sectional party that may resist the majority as simple as established by this government; and that we firmly believe all such disunionists and traitors deserve the hemp neck-ties lately worn by John Brown & Co.

Resolved, That we will abide by the decisions of the Decatur Convention, and pledge ourselves to support their nominations.

Resolved, That we as Republicans will, and that all other voters in Douglas county should, take and heartily support the Douglas County *Shield*, as a newspaper and political organ well worthy of our confidence.

Resolved, That the proceedings of this Convention be published in the Douglas County *Shield*, the Charleston *Courier*, and the Chicago PRESS AND TRIBUNE.

The Wide-Awakes.

The young men of Connecticut have organized themselves into "Wide-Awake clubs," to promote the Republican cause. The name and character of the organization was a happy inspiration. The Wide-Awakes bid fair to become a wide spread institution during the coming campaign. There should be a company of them in every considerable town in the Western States. The young men of Chicago should organize themselves into a Wide-Awake Regiment. We take the following account of this institution from an Eastern paper:

The Wide-Awake is expected to do Republican duty during the campaign, to carry a torch in the night processions, and to drill sufficiently in his company to march creditably well. Some of them carry a baton, slightly smaller than that carried by our police; this is only necessary where, as in Hartford, there is danger of attack from Democratic rowdies. The uniform consists of a cap and short cloak of glazed or enameled cloth, in addition to a torch. This cloak protects the clothing from any drops of oil which may be spilled, and at the same time adds very much to the splendor of the procession. They marched last night four abreast, and most of the companies were so well drilled as to change occasionally from close order to an open order, in which they were 10 or 15 feet apart. The beauty and importance of a torchlight procession are very much increased by this regularity of form, the impression which it creates being that of an orderly, disciplined, and effective force. No uniform could be better suited to the purpose than this. It is cheap, and is both water-proof and oil-proof. The Waterbury Wide-Awakes produced a unique appearance by a white trimming around the edges of their cloaks. They have glazed hats instead of caps. The New-Haven Wide-Awakes gave a peculiar cheer, done by counting from 1 to 9 rapidly, with a hurrah at the end. The Waterbury uniform cost at wholesale, I was informed: hat, 50 cents; cloak, $1 25; torch 75 cents. I give the rules and regulations of the Hartford Wide-Awakes, adopted at their first meeting:

Resolved, That this organization be called "The Republican Wide-Awakes."

Resolved, That the Wide-Awakes being the vindicators of purely Republican principles, extend a cordial invitation to all persons who are willing to indorse the sentiments of the great Republican and truly national party to join their numbers.

Resolved, That all persons becoming members of this association shall pay into the treasury the sum of $1.25, which shall entitle them to a cape, a cap, and the use of a torch.

Resolved, That it is the duty of each member to appear in each Republican torch light procession during the ensuing State and Presidential campaigns.

Resolved, That each member shall bear his share of the general expenses of the association, it being fixed by order of the Captain—when any expense may have been incurred by his approval.

Resolved, That every young man who styles himself a Republican, and will vow to prove true to the cause and be governed by these resolutions, may enroll his name upon the list and be considered a member.

When the Great Wigwam is built and ready for a "house-warming," it would add amazingly to the *eclat* of the occasion if a torch-light procession of a big regiment of "Wide-Awakes"—one regiment from each Ward—were to march into the Wigwam with banners and music amidst the cheers of ten thousand spectators, and the roar of artillery. This style of opening the campaign in Chicago would tell on the result at the ballot-boxes throughout the West.

PERSONAL.

Our old friend HERMANN KREISMANN, well known as one of the most effective German speakers in the Northwest, was in Connecticut a few days before the late election, doing capital service in the good cause. Of his speech at New Britain, the Hartford *Press* says:

The Germans had a glorious time last night at New Britain. Mr. Hermann Kreismann, of Chicago, gave them an eloquent address which was enthusiastically received. After the German speech, our correspondent adds, "Mr. Kreismann made us Yankees, in English, one of the most telling speeches we have had. He was proud to be called a Republican and to act with that party because it was the advocate of equal rights to all American citizens. The party at the West will put their ear close to the ground, on Monday night next, to catch the news from Connecticut." Some Irish Democrats were present during the meeting and grossly insulted an Irish Republican who came in, and tried to prevent his taking a seat.

THE RESULT OF LEARNING A HORSE HUMAN HABITS.—The New Orleans *Delta* gives a very amusing account of a horse called "Pete," attached to the fire department of that city, from which we extract the following:

Cock-tails are a favorite beverage with "Pete," and it used to be a custom with the boys to take him into the Woods House and give him a drink after a fire, after which "Pete" used to help himself to all the crackers and cheese on the lunch table. On one occasion he got a view of himself in a large mirror near the lunch table, and supposing it to be another horse who wished to interrupt him in his meal, he dashed his head against the fine glass and broke it all to pieces.

OUR WASHINGTON LETTER.

The President and his Protest—Henry Winter Davis preparing to Speak on it—Charleston Speculations.

[Special Correspondence of the Press and Tribune.]

WASHINGTON, March 30, 1860.

The main topic of conversation in all circles to-day, is the message of the President to the House yesterday, putting in a plea of abatement against the charges made by John Covode. I hear but one opinion expressed in regard to it among opposition men, and but one opinion in regard to the manner in which it should be treated. James Buchanan, say one and all, is the last man to beg for mercy when it comes to the question of executing justice upon him for his political transgressions. When did ever the appeal for leniency on the part of political culprits find access to his ear? When did he demand anything less than the pound of flesh stipulated in the bond? Ike Morris, of Quincy, is very free, to day, in expressing his opinion as to what ought to be done with the message—he says it ought to be sent back to the President with the compliments of the House, denying his right to address them in this manner. Isaac bites imaginary tenpenny nails in two whenever he thinks of the President; but with all his indignation and hatred of old Buck—with all his curses of him, both loud and deep—he hasn't the nerve to vote against the President's friends. Far different John Hickman. At the regular meeting of the Judiciary Committee this morning, a special meeting was called for Monday morning to consider this message. As this is an important matter, it will be well to recall the names of the members of this Committee. There are among them two Anti-Lecompton Democrats—John Hickman of Pennsylvania and John H. Reynolds of New York; four Republicans—William Kellogg of Illinois, John A. Bingham of Ohio, Christopher Robinson of Rhode Island, and Albert G. Porter of Indiana; one South American—Thos. A. R. Nelson of Tennessee; and two Democrats—Geo. S. Houston of Alabama and Miles Taylor, of Louisiana. All these, with the exception of the last two, voted with the Republicans yesterday on the motion to refer the message to this committee. Mr. Hickman remarked to day, in speaking of the reference of the message to his committee, "Well, the President has at last got into the hands of his friends." He will report upon it Monday or Tuesday. I am told that Henry Winter Davis will take the floor upon it. Mr. Davis has been subjected, by Mr. Buchanan's party hounds, to a persecution seldom surpassed, for malignity and relentlessness, in political history. The *Constitution*, Buchanan's personal organ, has pursued Hickman and Davis day after day, and week after week, and the smaller dogs have kept up an incessant barking at them. Federal money has been spent in getting up meetings to denounce Davis for his vote for Pennington. Now comes the day of retribution. Davis's indictment will be a terrible one. Next week bids fair to be one of the most interesting, in the House, of the session.

Upon examining the published vote, I find the majority against the Administration yesterday was greater than what I stated. The vote was 109 to 74. Taking out Gen. Schwartz and Mr. Burroughs of New York, who voted against the reference to the Committee in order to fling the message back in the President's face, and the anti-Administration vote proper was 111 to 72! *Horace F. Clark went with the Administration.* He has gone over bag and baggage. The only South Americans who voted against the reference were Boteler of Virginia, Boligny of Louisiana and Hardeman of Georgia. These may be permanently "counted in" for the Administration on all test questions.

In the Senate yesterday, Mr. Hamlin got through his bill protecting guano discoveries, and—would you believe it?—the irrepressible nigger was lugged into the discussion by Jeff. Davis. The bill is an important one to the commercial world.

The *States* is working desperately for Douglas, as the time for the Charleston Convention draws near. It is now engaged in the work of sliming over every other candidate with Squatter Sovereignty mud. It and the *Constitution* have got by the ears about Jo. Lane. The latter says the extracts made by the former from Jo's speech were garbled. The *States* brands the charge as "false." The "irrepressible conflict" in the camp of the faithful warms up finely. Montgomery has fairly established himself as Douglas's lieutenant. Curry will be recognized as the leader of the Anti-Douglasites. Well, "go it husband, go it bear!"

Some of the best-informed speculators insist that Lane stock is only one of the "fancies" in the political market, and that Hunter is really the man they mean when they talk Lane. I am half disposed, from what I hear, to credit this. I know the *Star*, which is a strong Hunter organ, talks Lane about every other day.

Mr. Murdock gave, this evening, at the Smithsonian Institute, a dramatic reading from Hamlet, for the benefit of the Mount Vernon Ladies' Association. There was a brilliant audience, and the entertainment was such only as Mr. M., in his happiest moods, can give.

WALDO.

Another Railroad Project.

(Correspondence of the Press & Tribune.)

BLUE ISLAND, Ill., March 31, 1860.

The people of the town of Worth, in this county, are discussing the subject of building a Railroad through the centre of their town, to connect either with the Fort Wayne Road at the Junction, or with the Chicago, Alton & St. Louis Road, at Brighton House. On Saturday last, a meeting of the citizens was held at Blue Island to talk the matter over, and take such action thereon as might appear advisable.

Though but a few hours' notice of the meeting was given, the attendance was large and respectable, and the project was ably and earnestly discussed, by the farmers, merchants and landowners present.

Resolutions were unanimously passed, declaring such a road to be greatly needed by all the interests of the town, expressing confidence in the practicability of the project, and pledging their aid in building the road, and their support to it when built.

A Committee of eight, Messrs. Young, Sanders, Sauerteig, Brand, Breed, Seyfarth, Brayton and Massey, was appointed to confer with all land-owners along the proposed route and the two Railroad companies above named, with a view to ascertain how much assistance they will extend to the scheme, and, also, to collect reliable statistics and other information relative to the trade and travel of the town, probable cost of road, &c., to report at an adjourned meeting, to be held at the same place, on Saturday, April 14th, at 2 o'clock P. M.

JOSH.

THE FIRE AT KENOSHA.

Loss $40,000 to $50,000.

[From the Kenosha Telegraph, Extra.]

The fire occured on Saturday morning between three and four o'clock. It commenced in the stable, which was in a few moments destroyed. Six horses in the barn were burned. The fire then communicated to the City Hotel, and the inmates had barely time to escape in their night clothes, saving nothing, the proprietor of the hotel lost from $4,000 to $5,000—insured for $1000. From the City Hotel the fire spread in different directions.

Next south the large hardware store of Bain & Brother on the corner of Main and Market streets, burned down, some of the property on the lower part of the store was saved. Bain & Brother are insured $10,000.

Next north of the City Hotel on Main street, the following buildings were burned: Land Agency office of S. Y. Brande, insured. Next, shoe shop, occupied by Mr. Huck, no insurance. Next dwelling, occupied by Mr. Gammel—very little furniture saved—no insurance; next grocery store owned by Engle & Hafner, and occupied by A. Huck, not much saved; next an unoccupied store owned by E. W. Evans, Esq.; next meat market of Engle & Haifner, a part of the building occupied as a dwelling. Engle & Haifner estimate their loss in buildings and property at $3,000—no insurance.

On the East side of Main street the following buildings were burned: The Quarles Block, corner of Main and Pearl streets; this was a large three story brick block divided into two stores, substantially built, and regarded as nearly fire proof—having a tinned roof; the third story was known as Military Hall; the first floors were mainly occupied by G. D. Head, Grocery and Provision Dealer. Mr. Head loses full $4,000. The block owned by F. Quarles was not insured. South of the Quarles Block, a two story frame building, occupied by Mr. Cook; the family lost a good share of the furniture; a bakery and dwelling occupied by Mr. ——— no insurance; a meat market kept by Fosdick & Wiltse, building owned by N. Elile—no insurance. Next a dwelling house owned by Geo. Vale, no insurance; Harness shop owned by English, insured $500. Barber Shop occupied by Lickhout, pretty much used up.

On Pearl street, a paint shop unoccupied and owned by N. Elile, was burned—no insurance. A dwelling-house owned and occupied by G. B. Crisup, furniture partly saved. A blacksmith shop occupied by ———, no insurance. A pump factory on the corner of Pearl and Exchange streets, owned by N. Elile and occupied by Westover, and Silsbee—property in the building mostly saved, no insurance on building; also barn on same lot. Mr. Elile estimates his loss in buildings at $5,000.

On Exchange street, a dwelling house owned and occupied by Mrs. McDonald—considerable of the furniture saved—no insurance. Dwelling house owned and occupied by John McDonald, no insurance. Dwelling house owned by John Hogan, torn down. Dwelling house owned by Dr. Slocum, and occupied by Mrs. Forcyne; also barn on the same block owned by N. Elile. Also an extensive blacksmithing establishment, owned by E. Bain, on Pearl street—loss estimated about $3,000, no insurance. Also a livery stable barn on the lot west of Bain & Brother's store, was burned, and a small building adjoining torn down.

Whole number of buildings and shops burned (exclusive of barns) twenty-six—loss estimated from $40,000 to $50,000.

Mr. A. W. Benham, of Wilmot, in this county, we regret to learn, sustains a severe loss by the fire. His son brought in a load of flour, stopping last night at the City Hotel, putting his property into the barn; he had a noble span of horses, and he estimates his loss of horses, wagon, harness and flour at $300. There was also burned in the City Hotel barn, a valuable horse, widely known as the Perkins & Pitkin horse; also a valuable horse, buggy and harness belonging to Mr. Robinson of Genoa.

GARDENER'S MEETING.

Report of Discussion on Pruning, Root and Top.

[Reported for the Press and Tribune.]

We hail with pleasure the increasing interest and importance centering about the meetings of the Chicago Gardeners' Society, and cannot help seeing in it an augury of "the good time coming" when Chicago shall in truth and deservedly, wear her musical, but, at present, purely pseudonymous appellation—"The Garden City."

At their rooms, during Monday afternoon and evening, Flora seemed to have taken up her vernal abode, to the complete satisfaction of bevies of fair ladies and their attendant cavaliers, who meekly submitted to being loaded down with boquets and pot-plants—roses, varicolored and fragrant—Japan lilies, snowy and showy—wax-like japonicas, odorous heliotropes and funny-looking Pike's Peak cactuses, geraniums, euphorbiums, etc., etc.

The sales, both of bouquets and pot-plants, were ready and limited only by the supply. The exhibition of Messrs. Brooks, Williams & Bonnard were very choice, whilst the boquets from the conservatories of the Hon. I. N. Arnold, (through J. C. Ure) and of Messrs. Lill & Diversy (through D. Bonnard) were perfect gems. The proceeds of the sale of the bouquets were donated to the library, to which, at the evening session, on motion of Mr. Reilly, a further appropriation of twenty-five dollars was made.

In accordance with the revised Constitution, the following officers were elected:

Second Vice-President—H. Whitbolt.
Librarian—H. Lunbard.
Executive Committee—F. Ludlow, A. T. Williams, (professionals) Dr. J. Asa Kennicott, Frank W. Reiley, (amateurs.)

The essay on "*Root Pruning*" was laid over for a subsequent meeting in consequence of the absence of the essayist, Edgar Sanders, of Lake View. On motion the subject of *General Pruning* was taken up for informal discussion. Bonnard, on being called upon, suggested that the subject be postponed until the next meeting, when he proposed having trees, etc., on hand for practical illustration. Discussion was, however, insisted upon for the present, and Mr. Bonnard's illustrations requested when the essay shall be handed in.

Ludlow gave his European experience. Had pruned, both top and root, in a garden in London, (England), when the surface soil was richly made, but with a sandy sub-soil; trees grew luxuriantly, and where obliged to prune rather severely. In root pruning all round at a distance of eight feet from the stem with a spade, as recommended at the last discussion, in an orchard of 300 trees, the luxuriant wood-growth was checked; while, where the tap roots merely were cut the growth continued unchecked. In the pruning all round, the quantity of fruit was materially increased, but, as the speaker thought, at the expense of the quality. In summing up, would say that he thought the necessity for root pruning rarely existed, where there was good soil, well manured and drained, and properly attended to.

Bonnard.—Did the trees continue to bear as abundantly?

Ludlow.—For the four years that I remained after, and know of, they did.

Bonnard—Thinks it necessary to prune to get fruit every year. Object of pruning is to equalize. Trees that are not pruned bear immensely one year and sparsely the next year.

Williams—As to the *modus operandi*, would trim the branches in the middle and top, and let the end shoots go; recommended annual pruning.

Chas. D. Bragdon (of the *Prairie Farmer*), introduced Wm. Saunders, Esq., of Germantown, Pa., the eminent landscape gardener who laid out the Rose Hill Cemetery, and is now engaged at Hyde Park.

The rules were suspended and Mr. S. elected an honorary member, when the discussion was resumed. Mr. Saunders, by invitation, spoke as follows:

Mr. President and gentlemen: I feel very appreciatively the honor you have done me, in enrolling me with you as an honorary member; and although I came here this evening, expecting and prepared to hear an essay by one who has achieved such a reputation, as a skillful, intelligent gardener, as my friend Mr. Edgar Saunders, and am not prepared to speak upon the subject, I cannot refuse to briefly, and necessarily, imperfectly recapitulate the points which occur to me. Full and complete justice cannot be done so extensive and prolific a subject as "Pruning," short of the limits of a careful, well-digested essay.

The main use of pruning is of course to produce fruit. Trees grown from seed and left to nature, uncared for by art, have a tendency to the production of wood at the expense of fruit. More particularly is this the case in trees of a rich, luxuriant, early growth—the apple, pear, &c., in all of which wood buds form in preference to fruit buds. The production of these is dependent, in a great measure, upon seasons, so much so, indeed, that gardeners have a theory that pruning in summer will produce fruit, while in winter wood will be the result.

It has been objected that root pruning, once done, demands an annual repitition. This is a mistake, I think; for when the tree has been once thrown into bearing, I have never found it to recede. I have known of trees thrown into bearing by root pruning, never repeated, to continue bearing year after year. One case which occurs to me, of a grove of nectarine trees in Maryland, which had grown well for eight years, but without fruit, is in point. The trees were root pruned very severely, indeed, so much so as to excite surprise in the minds of neighbors. They fruited the next year, and have continued to bear well ever since—some ten years now. I have witnessed the same in peach trees repeatedly. It may be taken for granted that when the wood growth is once checked, it rarely, if ever, again acquires a preponderance. I deem it unnecessary to enter into details as to mode, so fully has the subject been discussed. Nor can any definite rules be given for its application. If done in Spring the wood growth will go on as luxuriantly as ever; but if done, say in August, when the wood growth has ceased, the forming wood buds may be changed into fruit buds.

Of girdling to produce fruit I do not approve. As an interesting experiment to the nurseryman or horticulturist it is well enough, but its destructiveness would prevent its extended application. The part above the wound will be more intensely brilliant and flourishing looking during the season, owing to the downward flow of the sap being checked. But it is the hectic flush of disease, and the limb so treated will die out inevitably. In closing these desultory remarks, allow me to again return my sincere thanks for the honor you have conferred upon me, and to express the hope that our Philadelphia Society and yourselves may assume more intimate relations.

C. Thurston Chase (author of the *Prairie Fruit Culturist*, &c.,) would inquire more into the phenomenon of the changing of wood buds into fruit buds, and *vice versa*.

J. Asa Kennicott (of Kenwood, Hyde Park,)—Without a blackboard for illustration it will be a difficult subject to explain. But the fact is definitely settled, that the production of either may be effected by pruning at different seasons.

Peterson—It is quite common among Eastern gardeners to pinch in the shoots in August, which has the effect of throwing out fruit buds. In California this is never necessary.

Kennicott—The climate does the pruning there. The hot, arid suns of July and August prune most effectually, top and root, while the moist, warm, favorable springs induce fruit buds and blossoms.

Chase—Has Mr. Peterson made actual observation of the change of wood and fruit buds?

Peterson—I have, and am satisfied they do so change.

Chase—I have pressed this question, because I think it a most interesting one, and would like to call to the minds of the meeting the statement of Dr. John A. Warder, (the pomologist, Editor of the *Cincinnatus*, etc.) at the January meeting of the State Horticultural Society. Dr. W. stated that Mr. Ernst, of Cincinnati, budded a Bartlett pear bud upon a seedling pear stock. The same season the bud blossomed, and Mr. E. found he had gotten a fruit bud instead of a wood spur. The blossom perfected a Bartlett pear, without a fibre of Bartlett pear wood or leaf. The pear was a genuine Bartlett, thoroughly flavored and marked. Should like the opinion of gentlemen on the phenomenon. Thinks, personally, that it subverts the idea of the sap receiving its characteristics from the tree, leaf, etc. The bud itself seems to have a controlling influence.

Nothing of much interest was elicited on the subject, and on call of the members, Mr. Ure, yielding the chair to Mr. Chase, spoke as follows:

I have listened with much interest to this discussion, and to the incidents developed; and have endeavored so to put the questions as to elicit the fullest information upon the subject. For myself, I think Root Pruning beneficial for old trees, running to wood at the expense of fruit; but summer pruning of the sap wood, say three or four inches of the new growth, will be frequently found equally, if not more beneficial. Of course discretion should be used, and in some cases, no doubt, it would be better to root prune than to pinch in or top prune. I am opposed to root pruning all round, on our prairies. The trees need all the support they can have against our sweeping winds. I should prefer to dig down here and there, and trim off within the circumference of the branches—say in three or four places. All the indications would be fulfilled; the check of the sap would throw out fruit spurs, while the tree would not be endangered. I further think much of that sad evil, *winter killing*, could be obviated by a proper attention to drainage, &c., which would remedy the effects of our hot summers and wet falls, inducing a second growth, which leaves the tree enfeebled and exposed, to meet the rigors of our winters.

On motion, the subject of *Strawberry Culture* was chosen for discussion at the next meeting, and Mr. Ludlow requested to prepare a paper to be read at that time.

A Fickle Hoosier Girl.

The Terre Haute *Journal* tells a story of a fickle Hoosier girl who went from that State to Marshall, Ill., recently, to get married, which deserves to stand as a companion to that of the Mississippi girl who married one man in the afternoon, eloped with another at night, and came back to her husband repentant the next day. The girl, with her lover, was at a hotel where a returned Californian was stopping, and while the lover was out hunting a preacher to marry them, the Californian saw her name on the register and sought her out. He proved to be an old lover to whom she was once engaged. He reproached her for deserting him. She cried and begged forgiveness. A stormy scene ended in her promising to break her present engagement and go back to the arms of the Californian. Just as this arrangement was completed the other lover returned, and was very naturally astounded at finding another man in his place. Explanations followed, and the girl being puzzled as badly as Macbeth between her two lovers, for she "could be happy with either were t'other dear fellow away," they withdrew to decide the matter themselves. The Californian finally resigned his pre-emption, and the other married the girl at once, the Californian acting as groomsman.

FROM WASHINGTON.

From the New York Herald, (Pro-Slavery.)

WASHINGTON, March 30th, 1860.

Senator Wilson, who has failed in bringing forward Judge Read, of Pennsylvania, as a candidate for the Presidency, has been absent from his public duties some time, which lessens his chances of being a candidate for the Vice Presidency. His friends think his fierce opposition to the two years amendment in Massachusetts should entitle him to be nominated as Vice President, especially as he was first elected by the Know-Nothings to the United States Senate when they were advocating twenty-one years for foreigners, which he indorsed.

Senator Seward entertained his political friends at dinner to-day, and this evening threw open the doors of his hospitable mansion to all who desired to call—to many who are constant friends, and some who have not before paid him their respects. It is a singular fact that many politicians who will vote for the Republican nominee, whoever he may be, respectfully decline attending Mr. Seward's weekly levees, because they desire to avoid the slightest suspicion of commitment to any man until Chicago speaks. The social influence of such entertainments as are given at Senator Seward's tends to commit men to a certain extent. Cameron, Wade, Fessenden, Trumbull, Pennington, Hickman, Haskin and others who are talked of as candidates for the Presidency, do not give weekly entertainments. They hold a different hand and play according to the cards they hold.

The Judiciary Committee, to whom was yesterday referred the special message of the President, have not determined what course they will pursue. The impression prevails, however, that the majority will report a series of resolutions sustaining the action of the House in appointing the Covode Select Committee to investigate alleged frauds and repelling executive interference.

There will, undoubtedly, be a minority report sustaining the position of the President, and recommending the transfer of the duties imposed upon the Covode Committee to the Judiciary or some other standing committee of the House.

Messrs. Barr, Irvine, Garnett, Verree and Harris of Maryland, have been appointed a select committee by the Speaker of the House, on Mr. Barr's resolution for an investigation of certain contracts in connection with the public stores of New York.

Mr. Hindman, from the House Committee on Public Expenditures, has a resolution which he will offer, to compel Ford to answer certain questions relative to arrangements which he made with the lobby and some country editors previous to his election as printer, which Ford has declined doing. Ford is willing to state arrangements made since, but not before his election.

Mr. Ford, House Printer, backed by responsible parties, has purchased Wendell's entire printing establishment, taking an invoice price, real estate and all. It is understood he intends starting a Republican paper, and will advocate the Chicago nomination, preferring, however, the nomination of Cameron.

On Monday next Mr. Hooper, delegate from Utah, will appear before the Committee on Territories to protest against any attempt of Congress to divide up the Territory of Utah, and thus destroy the present government there.

A number of persons, including some of the hotel keepers in Charleston, have arrived here, and have called upon some of the members of the National Committee in regard to statements which have been made of exorbitant charges which it is said hotel keepers and others are imposing upon the people. They pronounce the statements false, and say that no undue advantage will be taken of delegates and others who propose attending the Convention. They also state that ample accomodations will be provided for all visitors. This assurance from people of Charleston will have good effect upon the Committee.

[From the N. Y. Times Telegraphic Correspondence, March 30th.]

The appointment of English as Marshal of Indiana has produced a great flare-up in the Administration household. A Mr. Voorhees called on the President and earnestly protested against it in the name of the Administration Democrats in Indiana. After he concluded his remarks, Mr. Buchanan replied, "Mr. Voorhees the President, I beleive, Sir, is vested with the appointing power, and he has exercised it. I have no other answer for you, Sir." Mr. Voorhees, I learn, avows his determination to support Douglas, as the heaviest blow he can give back, and Senator Fitch declares his purpose not again to enter the White House. The new appointee is father to Hon. Wm. H. English, author of the famous English bill.

[By Telegraph, March 30, to the N. Y. Tribune.]

Mr. Nelson intended yesterday to offer resolutions denouncing the President's insulting Message as violative of the rights of the House, and he may seek some future opprotunity.

Mr. Covode's Committee have adjourned till Monday at ten o'clock, when Mr. Schell will be recalled and required to produce the list of subscribers to the New York Hotel fund which was raised to carry Pennsylvania in 1856. It is believed his refusal yesterday, after his previous promise to furnish the paper, was influenced by some member of the Administration, as the President has been kept fully informed of the testimony before this committee and that of the Committee on Public Expenditures. Mr. Schell has been notified not to leave the city, and if he proves contumacious he may be sent to keep Mr. Hyatt company. His brother Richard, who has acted as private financier for members of the Cabinet when pinched, has also been summoned to tell his experience.

THE PRESIDENT'S LAST MESSAGE.

Leading Democrats in and out of Congress condemn the President's Message as weak and unnecessary, beside being calculated to place them in a false position before the country as obstructing an investigation on the eve of a Presidential canvass. They complain, too, that while it was submitted to the Cabinet, no consultation was held with members of the House, upon whom its effect was most immediately to fall. It is regarded as most unfortunate in both a party and personal sense.

CARSTANG VS. SHAW.

The Great Breach of Promise Suit.

[From the Missouri Democrat, 2d.]

Our readers have already been informed that in the great breach-of-promise suit in St. Louis, CARSTANG *vs.* SHAW, the jury found for the defendant. In a former trial Miss Carstang recovered $100,000. In relation to the matter the St. Louis *Democrat* says:

Our readers will bear witness that for twenty days we have faithfully followed the proceedings in the famous breach-of-promise trial, which terminated on Saturday evening by a verdict for the defendant. Both the oral testimony and depositions from abroad have been given fuller than ever before attempted by any paper in the West; and though the pressure upon our columns has been enormous, we have succeeded in giving full reports of its progress. The trial is now over, and the retrospect fills the mind of every reader. It has severely tested those who have been concerned nearest, and the judges, jury and counsel are entitled to praise for the unwavering patience manifested at every stage. Had not the zeal of Judge Reber kept the court in session from nine to twelve hours every day, the trial would not have been through for a fortnight hence.

But now that it is through we regard it as one of the most extraordinary on record in the judicial history of the country. In all that combines to make it interesting, it has no parallel; and the thousand and one complications involved in its considerations were well appreciated by Major Wright, when, after speaking eight hours and a half, he said the cause was still unargued; as well as by Mr. Glover, who spoke with great effect for seven hours, and left very important points untouched, as he said himself. Undoubtedly the verdict for the defendant was as unexpected by him as it was by the community at large in the first days of the trial. It presents a remarkable contrast to the former, of a verdict of $100,000. In a case of this kind public opinion will be divided, and while one voice will applaud another will condemn. It has disappointed those who have watched it closest, and the belief generally indulged in that the plaintiff would get a small verdict, so as to compel Mr. Shaw to pay the costs, has been destroyed. But in all points of view the public will be as well satisfied with the verdict as rendered, as with any other. Public sentiment is averse to a display of female modesty seeking damages for blighted affections in a court of justice, and no matter how pure the motive, or irreproachable the character, some stain will always attach itself to the name of a woman who institutes suit for breach of marriage contract. This may be a false sense of propriety, nevertheless it is the one most prevailing, and as such we must deal with it. Miss Carstang was warned against the odium that was to follow. She risked all. Her life and character were staked on the result. She almost won, by the first verdict, but has lost in the fearful game. Let us draw the mantle of charity over the deed.

On the other hand the wealth of the defendant has given him the power to defend successfully, and if it proved the temptation to sue, it proved likewise the means to crush. Money has been liberally spent. There can be no doubt of that. A single deposition taken in New York, cost him $525, without counting the services of lawyers, constables and drummers of witnesses. Mr. Shaw has paid the expenses of the woman Nancy Wilber from Charleston to this city, her support since the 9th of January, and expenses back to Charleston, for the sake of her testimony. Other instances afford an example of the use of money, though it is due to truth to say there is not a syllable in all the evidence read on the trial, indicating an improper use of wealth to procure testimony. Any prejudice based upon this idea is unfounded so far as the proofs show. Nor is there anything assumed in the suppressed evidence which would show it. Able counsel had been engaged, and an immense deal of labor performed to prepare a defence, and the memory of the former verdict has doubtless stimulated the zeal of the lawyers. The principles of law have been, we firmly believe, impartially laid down by the Court. Judge Reber has favored neither side and the jury have never been assailed for any leaning either way before the trial. The verdict has been rendered and the long suspense which attended the case ended.

It is seldom that our Courts have been troubled with a case of this character, and we hope it may be a long time before we have another to publish.

—Vice President Breckinridge, Messrs. G. N. Schwarzman, W. D. Haley, and two others, received the thirty-third or highest degree in Masonry, in Washington, on Wednesday. Albert Pike, Sovereign Grand Commander of Arkansas; Albert Mackay, and Giles M. Hillyer of Mississippi, and B. B. French performed the initiatory service. The Snow Lodge will be held in the Unitarian Church on Friday evening by the Supreme Council, in honor of the memory of the late Gen. Quitman. Albert Pike will deliver the oration, and the Rev. W. D. Haley will act as chaplain.

The State of Europe.

[Foreign Correspondence of the N. Y. Tribune.]

LONDON, March 15th, 1860.

We hear by to-day's telegraph that the Savoy question is already arranged between Victor Emanuel and Napoleon, that a cession of Savoy and Nice is prepared by Cavour, the question of the final annexation being reserved for the vote of the municipalities, but that the French Government refuses to enter into negotiations with Switzerland about Chablais and Faucigny. We do not doubt the correctness of this information, though the most important concluding clause was omitted, viz: that France gives up her opposition and protest against the annexation of Tuscany, and acknowledges the full extension and aggrandizement of Sardinia. The unanimity of the vote of the Italians by universal suffrage, cast on Monday last, may have had its share in this important result, by which the Treaty of Zurich becomes a piece of waste paper. The population of the Emilian provinces and Tuscany amounts to about four millions, and among these the following votes have been cast:

FOR ANNEXATION.

The Romagna	202,659
The Duchy of Modena	115,621
Parma	88,511
Tuscany, with the exception of 32 communes not yet known	330,087
Total	636,878

The votes for a separate kingdom, and the informal ones, are not yet fully reported. They do not amount to 25,000. Thus it appears that about 660,000 votes have been cast by the population, which gives the proportion of about one voter in five inhabitants. This proportion is considerably larger than that of the elections in the United States, and approaches the proportion of France in 1852, when there was one vote to 4½ persons.

The question now arises, what will be the immediate result of this popular manifestation, which bids fair to introduce the principle of universal suffrage into the public law of Europe, and therefore is violently denounced by the journals which represent legitimacy. That Victor Emmanuel will at once march his troops into the newly-acquired provinces is scarcely doubtful. Orders have been already given to that effect, but it is altogether uncertain whether the Pope will submit to this "spoliation," as he calls it, and rest satisfied with a bull of excommunication and a diplomatic protest aimed at Napoleon as well as at Victor Emmanuel, or whether he will at once go to war with his 25,000 men, organized and commanded by the Austrial General Mayerhofer, supported by the Neapolitan army, and perhaps by Austria, too.

Though Naples and the Papal dominions, as they are now constituted, are exactly as populous as Sardinia in her present extension, each of these two divisions of Italy numbering about twelve millions of inhabitants, the southern league is unwilling to begin war unless certain of the speedy support of Austria. Austria, on the other hand, is scarcely able to gratify the warlike desires of Francis Joseph, since the rottenness of the system has become too glaring not to lead to violent outbreaks in case of a defeat in the field. We saw in the earlier years of the present Emperor's reign, Professor Endlicher, one of the most influential men at Vienna, closely connected with the Ultramontanists, poisoning himself, and the Chief of the Postal Department, Privy Councilor Von Nell shooting himself, both having embezzled public money; but now we hear at the same time of the suicide by hanging of Lieutenant-General Eynatten, his son, an officer of the army, having previously absconded; of the suicide by poison of Mr. Noe Von Nordberg, Chief of the Police; of the arrest of Mr. Richter, chief manager of the Credit Mobilier, with a salary of $20,000; and of Messrs. Brambilla and Perugio, belonging to the leading merchants of Trieste—all of them involved in frauds upon the treasury. We may add that Mr. Dore, an officer, whose family is connected with the Court, has been hung for treason; that General Pointner has shot himself to avoid a trial for cheating and swindling, and that Baron Eskeles, one of the Directors of the Bank, became a bankrupt, all within the same year. Taking these facts together, we may get an insight into the state of society at Vienna. But how can it be otherwise when the Minister of Finances gives the example of swindling by the spurious emission of 118,000,000 of stock, and is retained in the Cabinet even after that disgraceful maneuver was denounced by the indignant protest of the Exchanges of Germany and Holland? We are involuntarily reminded by these disclosures of the state of society in France during the last two years of Louis Philippe, when the trials of the ex-Ministers Teste and Cubieres, and of the Duke de Praslin, prepared the population for the coming revolution.

But while these terrible revelations alarm the inhabitants of Vienna and destroy all respect for the ruling classes, while names of still more important and more influential persons are mentioned in connection with the frauds carried on against the treasury, the reign of terror is again introduced into Hungary. People are arrested without any apparent cause; ladies are fined for having been present at a ball given by a nobleman suspected of anti-Austrian tendencies; the houses of men of the highest rank are invaded by police officers and their most private correspondence is ransacked, and suspected persons are prohibited from inviting their friends to dinner. The bribe offered to the Protestant churches to induce them to accept the obnoxious decree of Count Thun, having been unanimously scorned by the Calvinists, and only partially accepted by a majority of the Lutherans, the Minister of Public Worship is now preparing for a new crusade against them; while on the other hand the Calvinists are ready for the worst in defense of their faith. The mine is charged, the train is laid, and any accidental spark may cause an explosion.

Arrival Extraordinary Runaway Slaves.

[New Orleans Delta March 26th.]

Yesterday at about noon a gang of thirty-four plantation slaves, all men, marched into the city, by way of the Jackson railroad, and came down to Commercial Place to look for a lawyer, as they said, to put him in the way of finding out who their master was! Whilst standing in a gang on the alley, the police came along, and finding they were not under any body's control, arrested them and lodged them in the First District lockup.

These negroes came from the Oak Grove plantation, in St. James parish, fifty miles above the city. Their story is a singular one. The plantation belongs to the estate of James H. Shepherd, deceased, and is held by a number of heirs. The negroes say that for five years they have not known whether they had a master or not; that lately a new overseer was put over them, and treated them cruelly without proper cause, knocking them down with clubs and flaying them till their backs were all raw. They say that they went to a young man on the plantation (one of the heirs) and asked his protection, but obtained no satisfaction; and that on this account they deserted the plantation to come to the city for legal redress. They say that they left the plantation between nine and ten o'clock on Sunday walked all day and part of the night through the woods, to avoid being intercepted, and part of the night walked on the railroad; coming down from Kenner on the track yesterday morning. They say there is another gang who left the plantation with them, and took to the woods and that this gang will come along soon if not stopped on the way.

They deny positively that any white man ever had anything to do with them in their taking this course; that all they want is to find out who is their right master, that they can complain to him when treated as they have been by their new overseer.

They had not eaten a mouthful since they left the plantation, and were dreadfully fatigued and hungry. When put into the lockup, they fell down in heaps and commenced snoring, whilst some, who were not so sleepy, commenced begging for a mouthful to eat.

It is said that ever since the death of their old master they have been a very unruly and insubordinate gang of negroes, requiring a hard hand to keep them in subjection. Be this as it may, their action in coming boldly to the city, instead of skulking off for good, entitles their story to some credit. The plantation is to be sold before long, and then may be they will have the gratification of knowing who their master is.

Another Decision on County Railroad Bonds.

[From the Keokuk Gate City.]

Judge Love delivered an opinion yesterday sustaining the validity of railroad bonds. There were several cases before the Court, but the case in which the opinion was given was that of Moir *vs.* the County of Wapello.

The case involved the legality of subscriptions by counties to railroads, and the construction of section 184 of the Code, and was a suit upon coupons attached to bonds issued in pursuance of a vote of the people of Wapello county. S. F. Miller for defendant demurred to plaintiff's petition and contended that, under a recent decision of the Supreme Court of Iowa, the county had no power to issue the bonds, such power not being a necessary adjunct to a municipal corporation, and as the county had not the power to issue the bonds, he holders, dealing with a corporation whose powers are limited, deal at their own peril. Judge Love held that, inasmuch as the Supreme Court of Iowa, from the time the question was first presented for adjudication up to the present time, had decided that counties possessed the power under the Code to subscribe to railroads, and as, at the time of issuing these bonds, such was the law as decided by that court, parties contracted under the faith of these decisions; and as the Supreme Court of the United States had decided that where a long current of judicial decisions in the State had established the law to be of a certain character, if the same court changed that law subsequently, the Supreme Court of the United States was not compelled to obey the arbitrary caprice of the State Court, but would adhere to the well settled law of the State; and in this case the District Court would act upon that decision and sustain the law as settled, and overrule the demurrer, for he could regard the latest decision of the Supreme Court of Iowa, if sanctioned by him, only as judicial repudiation, as they themselves had pronounced it in another case, and be considered that a judicial fraud was surpassed only by a pious fraud.

—The Lafayette (Ind.) *Courier* tells an amusing story of a company of young ladies and gentlemen of that place, who took it into their heads to adjourn from a social party to a walk near the cemetery. As they approached the ghostly place a lady screamed. All eyes turned to the point indicated by her alarm, and saw a ghost coming towards them, apparelled in orthodox white. They all ran, but one sturdy woman, of the strong-minded class, who stood her ground till the ghost got to her, when she seized it, and thrashed out of his frightful disguise a mischievous fellow who had heard the project of walking about the graveyard discussed, and hid himself there to give the party a fright. She led him back to the house, and in reply to the questions that poured in upon her, said: "Can't fool me. I've seen too many men in sheets to get frightened at them!"

At a restaurant in New York, a day or two ago, a young man bought some oysters for which he paid 25 cents. Before he finished eating them he discovered in them several large and valuable pearls, which he readily sold for two hundred dollars.

PRINCE
Imperial Champagne,
FROM DE VENOGE & CO.,
EPERNAY, FRANCE.
Sold by all Respectable Dealers throughout the Country.
This fine brand of CHAMPAGNE, which until the past year was confined exclusively to the best tables of the Continent of Europe, has now obtained the most unbounded success and popularity in this country. It is recommended by some of the first Physicians of the city of New York, over all other wines, on account of its extreme purity and delicacy, and those who once try it rarely use any other brand. Although only one year has elapsed since its introduction into this country, the demand is enormous and constantly increasing. Our arrangements are such as to ensure the quality of the Wine being maintained at its present high standard. The Prince Imperial is imported solely by us, we being the sole Agents of Messrs. De Venoge & Co., in this country.

SOYER'S SULTANA SAUCE,
For Hot and Cold Dishes of all kinds. This most delicious and appetising sauce, invented by the renowned "Soyer," for the London Reform Club, is, since his decease manufactured by the well known house of Crosse & Blackwell, London, from the original recipe. It is the favorite sauce in England, and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and to digestion.
OPINIONS OF THE LONDON PRESS.
"We recommend our correspondent to try Mons. Soyer's new Sauce, entitled the 'Sultana Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of slow and weak digestion."—[The Lancet.
"Savory, Piquant and Spicy, worthy the genius of Soyer. —[Observer.
"A most valuable adjunct to Fish, Flesh, and Fowl, and should have a place on every table."—[Atlas.

The N. Y. Academy of Medicine certify that it contains 85 per cent of Pure Cod Liver Oil,
1st—That it is an established fact that Oils, to be assimilated must be transformed into emulsion in the stomach.
2d—That in most of the cases in which Cod Liver Oil is prescribed, the stomach of the patient is not in proper condition to make emulsive all the amount of oil taken, and that a great part, and sometimes the whole of the oil passes off undigested, and consequently inoperative. (this is easily traced in the dejections.)
3d—That my Cod Liver Oil Jelly being a compound of oil and sugar, is an emulsion of itself as soon as in contact with a liquid; which takes place as soon as it reaches the stomach, whatever its condition may be.
4th—That in cases when the Physician believes Cod Liver Oil to be prescribed as a specific or otherwise, my Jelly is more reliable than the crude oil, because being a solid it must remain in the stomach to undergo the natural process of digestion and assimilation, when on the contrary the liquid oil will pass off inoperative, if the stomach, as above stated, is not in a condition to make it emulsive, which always is more or less the case when the oil is indicated.
From the above consideration, the superiority of Queru's Cod Liver Oil Jelly over the crude oil, is to be acknowledged as a positive and incontestable fact. Sold by

THE GREATEST WONDER OF
THE NINETEENTH CENTURY.
Prof. Wood's Hair Restorative.
Says the St. Louis, Mo., Democrat: Below we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:
BATH, MAINE, Jan. 20, 1858.
Professor O. J. Wood & Co.—Gentlemen: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the grey or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two years, has used it with the same effect. The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am truly yours
A. C. RAYMOND.
BALTIMORE, Jan. 23, 1858.
WOOD'S HAIR RESTORATIVE.
Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.
The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.
WM. DYER.
BROOKFIELD, Jan. 12, 1858.
Professor Wood—Dear Sir: Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair which was becoming grey, to its original color. I have used no other article with anything like the same pleasure or profit. Yours truly,
J. K. BRAGG.

THE GREATEST WONDER OF THE NINETEENTH CENTURY.

Prof. Wood's Hair Restorative.

Says the St. Louis, Mo., Democrat: Below we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, MAINE, Jan. 20, 1858.
Professor O. J. Wood & Co.—Gentlemen: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week, and I have since procured another bottle, of which I have used some. I can now certify to the world that the grey or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two years, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am truly yours
A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.
WOOD'S HAIR RESTORATIVE.
Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.
WM. DYER.

BROOKFIELD, Jan. 12, 1858.
Professor Wood—Dear Sir: Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair which was becoming grey, to its original color. I have used no other article with anything like the same pleasure or profit. Yours truly,
J. K. BRAGG.

6—STRUCTURAL AND SYSTEMATIC BOTANY. 1500 cuts. $2.00.

This Series of Text-Books in Botany, prepared by Prof. ASA GREY, of Harvard University, offers to Teachers and Students by far the most comprehensive, lucid, attractive and accurate apparatus for the study of Botany to be found in the language. The conscientious and oft revised labor of years, they embody the ripest results of the experience and scholarship of the author, who stands confessedly at the head of this department of science in this country. No text book ever published have received more unqualified and cordial approval of scholars and teachers. Testimonials have been received enough to fill a volume, from which a few only, of recent date are annexed.

REV. HENRY WARD BEECHER.
"I have no hesitation in saying that, among all others who have written on this subject, I esteem Prof. Gray, beyond all comparison, first."

PROF. JOHN TERRY, M.D., LL.D., U. S. Assay Office.
"Prof. Gray is well known as the most eminent theoretical and practical bontanist in our country."

PRES. HITCHCOCK, D.D., LL.D., Amherst College.
"Prof. Gray is among the ablest cultivators of this beautiful science on this side of the Atlantic."

PROF. PEARSON, A. M., Professor of Natural Sciences, Union College.
"Prof. Gray's 'Manual' is beyond comparison, the best 'Manual' in this country, and should find a place in every institution where Botany is studied."

PROF. TUCKERMAN, of Amherst College.
"There is certainly no book of the scope, on American Botany, which carries with it the weight, both in Europe and America, that belongs to 'Gray's Manual.' There is no work which can enter into any comparison with this."

BURTON HARRAR, A.M., Principal of Oxford Academy, Connecticut.
"I have used Wood's and Lincoln's Botanies, but think Gray's much superior to either, or any other."

PROF. WM. HOPKINS, of Genesee College, New York.
"I regard Prof. Gray's 'Lessons and Manual' as superior to any other works of the kind."

These books have been introduced into the best Colleges and Seminaries of the Northwest, and are daily gaining ground in all sections of the United States.

SOUTH AND NORTH; Or, IMPRESSIONS RECEIVED DURING A TRIP TO CUBA AND THE SOUTH.
By John S. C. Abbott.
1 vol., 12mo, 352 pages. Price $1.
VOICE OF THE PRESS:
[From the New York Independent.]
The VERY BEST BOOK ON SLAVERY YET ISSUED. Sound, judicious, kind, Christian, and most timely and faithful. * * * The author rehearses in a graphic way the measures of violence which "SOUTHERN AGGRESSION" has of late so systematically pursued; and, while condemning the crazy zeal of John Brown, he shows that his heroic self-denial for the oppressed puts to shame the coward fury of the South for oppression. Yet the tone of the book, while candid, frank and manly, is always kind and gentlemanly; NOT SECTIONAL, BUT FRATERNAL; not partisan, but Christian. He points the South to the simple remedy for existing evils, by substituting wages for the lash, free labor for coerced toil.
[From the New York Tribune.]
Its animated descriptions, and the frankness and cordiality of its tone, are adapted to give it a favorable reception, even with readers who differ most widely from him in opinion. * * * * The topics to which this volume is devoted, and the spirit in which they are discussed, though they may arouse a tempest of opposition from those who regard silence as the only guarantee of safety, will secure it a wide circulation among THE FRIENDS OF FREEDOM throughout the country.
[From the Atlanta (Ga.) Confederacy.]
It is a CONTEMPTIBLE ABOLITION PRODUCTION, written in a very readable style, and well calculated to taint the minds of the young.
[From the Detroit Christian Herald.]
It furnishes VALUABLE INFORMATION on the questions which now agitate our country.
[From the Hartford Evening Press.]
His impressions are such as would be derived by any honest, fair-minded Northern man. IT IS WARM, DIRECT, ELOQUENT.
[From the New York Observer.]
The book is intensely and avowedly Abolition.

Wonderful Deposits of Gold in Oregon—$35,000 to the Ton of Quartz—Two Men Take Out $50,000.

The Oregon papers are enthusiastic over the marvelous richness of the deposits recently discovered in Southern Oregon. "Gold Hill," from all accounts, well deserves its name. The Jacksonville *Sentinel* of February 25th says:

We have in the past few weeks published statements of the astonishing auriferousness of the quartz rock gathered and quarried at Gold Hill, but this past week we have to record still more astonishing facts. Since our last issue, the owners of both the Ish and Ross claims have crushed a considerable quantity of the quartz belonging to them, and extracted therefrom the gold. In both instances the extracting process has been crude and imperfect. We will give the figures as they have been proved. It will be remembered that at the lower claim, Ross & Co.'s, no regular ledge has yet been worked; their rock was taken from the surface, and at depths below, averaging from one to four feet. They have already crushed about three hundred pounds of this rock, which has given an average yield of $10 to the pound of quartz. One piece, weighing four pounds, gave eleven ounces and thirteen dollars.

Another weighing three pounds, yielded six ounces, and another piece weighing fourteen pounds, gave thirty-six ounces of gold! The lowest product of any of the rock (that in which no gold was visible) is about $2 to the pound. The company have used a large mortar and pestle as their crushing apparatus, but during the week a transfer was made of a one-fifth share of the claim to James Vannoy, of Josephine, who is an old practical Carolina miner, and this gentleman is erecting a crushing mill, which shall better answer the company's requirements. The price paid for this one-fifth was $2,500 in cash, and the purchaser to receive no share of the quartz rock taken out previous to the sale. The seller was Mr. London, who has besides an interest in the Ish vein, which he purposes to retain. The company have yet nearly a ton of quartz to crush, with a prospect of their claim still yielding as abundantly as ever.

The Ish company have completed their arastra, and up to Tuesday last (21st February) had crushed and washed out some four hundred pounds of the rock. The product of this was four hundred and forty-four ounces of gold! Four pounds of the large piece which we saw broken up during our last visit there, some two weeks ago, which weighed fifty five pounds, and in which it was estimated there was $1,000, was crushed in a small mortar, and twelve ounces and a half of gold extracted from it. The balance of this rock promised equally rich, and was sent to the arastra. On Tuesday the vein was again opened. In six hours nearly three tons of rock, and all of the most extravagant richness, were taken out.

On Wednesday, over a ton more was dug from the main vein, at a point where it was first discovered some five weeks ago, and we are assured by a perfectly reliable gentleman who saw the quartz, that it was of even surpassing auriferousness to any he had yet seen taken from the ledge. It was estimated that already the company have extracted fully $125,000 worth of gold quartz rock, while the ledge gives indications of increasing richness and extent.

A gentleman who has a claim near the Ish vein informs us that he saw a large piece of the rock taken from that ledge on Wednesday last broken apart, and that to sunder it the men had really to wrench it, so thoroughly interwoven and diffused was the gold through the whole mass.

The *Alta California* speaks of the arrival from these mines of Mr. Philip Meagher, who had with him a number of specimens of gold quartz, which were the subject of admiration. Says the *Alta:*

"One of these weighed between two and three pounds, and was broken off *ad libitum* by Mr. Meagher, from the Maury mine. It is perfectly filled with gold, so that, it may as appropriately be called quartz gold as gold quartz. In fact, the gold is apparent all over and through it. This splendid piece is to be sent to the Washington Monument, and will be a splendid exemplar of the immense richness of our Pacific slope of the continent. There were also half a dozen smaller pieces, which, with the large one, will be exhibited in this city. Our informant is a perfectly reliable man, well known in this city. He says that the story of two men having taken out $50,000 is quite true. He went into the excavations of both of the mines—the Ish and the Maury—and saw for himself the wonderful richness of the placers. It was more like a scene of enchantment—Aladdin's wonderful lamp, or some other fanciful creation of the Arabian Nights—than the reality of sober facts. Above, around, everywhere, the very walls of the excavations were specked with gold. Indeed such, it would seem, must have been the case, to accord with the telegraphic dispatch which reached here on Tuesday night, that $75,000 worth of gold were taken out of the Ish claim on the 15th inst."

These facts place this mine as far beyond the famous Allison lead, Nevada county, as that is beyond the ordinary quartz leads. Gold Hill seems to be the head quarters of the gold, as none is found along Rogue river, above that place, while below, for many miles, the canons, gulches and banks of the river have been found to pay, some as high as ten or fifteen dollars to the hand, and others showing only the color. The present season has been an unusually dry one, and this prompted many men to start out prospecting, for want of water, when these general discoveries were made. After the Maury claim was discovered, one of the men, who had been herding cattle at or near Gold Hill, remembered that he had found a piece of gold quartz on the top of the hill, sometime before, and this led to the marvellous revelation. The Ish Company, with a common arastra, crushed up four hundred pounds of quartz, from which they extracted four hundred and forty-four ounces of gold, which would make the rock average about thirty-five thousand dollars to the ton. These are extravagant figures, but the sober facts seem to sustain them.

MISCELLANEOUS.

FREE COLORED PERSONS IN CHARLESTON.—A recent letter from Charleston says:

The most notable feature is the tax on property paid by "free persons of color." The number of colored persons taxed is 355, and of these 304 are owners of real estate, while 226 of them own real estate to the amount of $1,000 or more—some of them nearly $50,000 worth; the entire amount owned by the 226 referred to, amounts to $717,495.

—From the first moment it was rumored that there was likely to be a commercial treaty between England and France, and that Mr. Cobden had been mixed up in the affair, his friends and collegues in the Anti-Corn Law League made up their minds that he ought not to go unrewarded by those who would most benefit by it. The first promoter of the movement is a gentleman in Lancashire, who thought that the best way to show his gratitude was to present Mr. Cobden with a large sum of money. He communicated with others upon the subject, and headed the list of subscriptions with the munificent sum of £5,000. The suggestion was no sooner thrown out than it was eagerly caught at, and in the space of three weeks more than £40,000 has been subscribed, the highest donation being £5,000 and the lowest £500! Such a subscription, composed of such large individual contributions, is without parallel in history, except in the instance of Mr. Pitt, and affords the most conclusive evidence of the value that is set upon the treaty by the manufacturing and trading bodies. It is stated to be the intention of several persons to set on foot another sort of testimonial, to which those who may have the same desire, but not the same means as they who have already given, may subscribe; and from the enthusiasm with which the proposition has been received there can be but little doubt of the result.

—M. Alexandre Dumas has produced the first part of what purports to be a translation of an autobiography of Horace, discovered by M. Dumas in the library of the Vatican. The opening portions are descriptive of Horace's boyhood—his first visit to Rome, and his being placed by his father under the care of Orbilius the Flogger.

—Advantages the fair sex possesses over man:

A woman says what she chooses without being knocked down for it.

She can take a snooze after dinner while her husband goes to work.

She can go into the street without being asked to treat at every saloon.

She can paint her face if it is too pale, and powder it if it is too red.

She can stay at home in time of war, and get married again if her husband is killed.

She can wear corsets if too thick—other fixings if too thin.

She can eat, drink and be merry, without costing her a cent.

She can get divorced from her husband whenever she sees one she likes better.

She can get her husband in debt all over, until he warns the public, by advertisements, not to trust her on his accounts.

—Senator Hammond, of South Carolina, has contributed $500 "to the purposes of the Lexington Monument Association."

THE GREAT EASTERN COMING TO NEW YORK.—At the recent meeting of the shareholders of this Company it was agreed to raise an additional sum of £100,000, in order to complete and equip the great ship for sea, making the total nominal capital of the company £430,000. The additional capital is to carry a preference dividend of seventeen and a half per cent., payable out of the first profits of the company; and the directors have the power of redeeming the new shares after the expiration of two years, on giving three months' notice and payment of a bonus of twenty per cent.

Capt. Robertson, of the Board of Trade, has made a minute and careful examination of the ship, and has stated the alterations which will be required to be made before the Board of Trade will grant their certificate. Many of these requirements are of a very trifling character, but the whole of the works required can be completed in about two months. It is expected that the ship will be able to start for New York about the same time that the Prince of Wales will visit Canada, and will, it is hoped, be able to accompany the royal squadron. Circulars have been issued to the present shareholders, requesting them to send in applications for the new shares, and up to last night applications for nearly £20,000 had been received at the offices of the Company.—*London Observer, March 12.*

IMPROVEMENT IN PUDDLING FURNACES.—An English improvement in puddling furnaces consists in giving to the furnace an oscillatory, rotary, or semi-rotary motion. These motions are given by means of any suitable apparatus attached to the furnace. It is claimed, as the advantage of this method, that the fused iron is more economically and effectually puddled.

SOLUTION.

Perhaps every one who is passing near the corner of Lake and Clark streets, is not aware that at PARK'S, NO. 124 LAKE STREET, there is an elegantly fitted up establishment, fitted with every variety of the finest Toilet and Fancy Goods in the Western Market. There is no place in the city, where such a fine display of rich goods may be seen as at the aforesaid "BAZAAR OF FANCY." We have been shown through the House, and the system of doing business has been demonstrated in such a satisfactory manner that we cannot refrain from giving public notice to strangers and citizens that the "BAZAAR" is the place to find an endless variety of fine Toilet articles, Fancy Goods, Patent Medicines, Perfumery, etc., etc.

Why is it that our Tinners all say that Jones & Lauth's Patent Annealed Sheet Iron is the best ever sold in this market?
Why is it that our Smiths universally acknowledge that Jones & Lauth's extra Scrap Horse Shoe Iron is not only the best, but the cheapest hitherto introduced into Chicago?
Why is it that our Machinists speak in such high praise of Lauth's patent Polished Shafting, Piston Rods and Plates? And why is it that this new Iron House, located at the corner of Franklin and South Water street, is so liberally patronized?
AN HONEST ENQUIRER.
ANSWER:—Simply because they manufacture their own Iron and Nails, from the best material, and sell low for cash.

THE ELLITHORPE QUARTZ PULVERIZER.
This machine is the result of a long and active experience in producing machinery for the crushing and pulverizing of hard rock, and minerals of all descriptions.
The extensive quartz fields of California, Australia, New and Old Mexico, as well as the new discoveries in Kansas, have as yet produced but a very small portion of gold, and even that, under an expense that has made quartz mining extremely uncertain, if not almost disastrous. Every conceivable machine has been brought into active use, and each in its turn has failed to accomplish an amount of labor sufficient to warrant the expenditures.
The ponderous proportions of these discarded machines, the immense power required to work them, and their original cost, has rendered them unavailable. The time has now come when the miner everywhere is seeking for some more competent labor-saving machinery; something that will cost less, weigh less, take less power, and do more work.
In introducing the "Ellithorpe Quartz Pulverizer" to the miner, we will give its actual working capacity and working results, not based upon a single experimental trial, but the result of many days labor upon the HARDEST material in the form of quartz, and original formations of trap and granite rocks. The advantages of this machine are these:
1st.—It weighs only 210 pounds.
2d.—It can be easily transported to any remote place.
3d.—It is simple in construction, and no more liable to get out of repair than a common turning lathe, it having but two plain journals of friction.
4th.—Its pulverizing surfaces can be replaced in less than five minutes, at a cost not to exceed one dollar and fifty cents.
5th.—Each set of surfaces will pulverize ten times the amount of quartz that the same weight of metal will on the face of the common stampers, and perform it in less than one-tenth of the time.
6th.—It does not require one-fourth the power that a common stamping mill does.
7th.—It pulverizes the rock uniformly, and to a fineness that cannot be attained with the stampers. In fact, it bears the same relation to the stamping machine, in the performance of its work, that the perfect flouring mill does to the old fashioned wooden mortar.
Any kind of motive power can be attached to this mill. It requires no expense in putting up; an axe and an auger, with the labor of two men for four hours, will put it in readiness for operation.
With these advantages, we place the mill before the miner, and feel confident that his own interests will insure its universal use and adoption.
The mills will be manufactured at the well-known machine works of Samuel Mowry, Greenville, Connecticut, and nothing but the best of Salisbury and Sterling iron will be used in their construction, for this is indispensable, as no quartz mill can be durable without good material and good mechanism. The reputation of this establishment will be a sufficient guarantee for the perfection of every machine.
Letters addressed to A. C. ELLITHORPE, Chicago, Ill., or to SAMUEL MOWRY, Greenville, Conn., will receive prompt attention.

AUDITOR'S OFFICE, STATE OF ILLINOIS, Springfield, February 13th, 1860.
WHEREAS, The Security Fire Insurance Company, located at New York, in the State of New York, has filed in this office a statement of the condition of its affairs, as required by "An act to regulate the agencies of Insurance Companies not incorporated by the State of Illinois," approved Feb. 14, 1855, and an act amendatory thereto, approved January 23, 1857, and whereas said Company has furnished satisfactory evidence that it is possessed of the required amount of capital invested in stocks and mortgages, and has filed in this office a written instrument signed by the President and Secretary thereof, appointing R. F. Mason, of Chicago, its agent for the transaction of the business of said Company, and fully and unreservedly authorizing him to acknowledge service of process for and on behalf of said Company, consenting that service of process upon him, the said agent, shall be taken and held to be as valid as if served upon the Company, and waiving all claim of error by reason of such service.
Now, therefore, in pursuance of the provisions of the acts aforesaid, I, Jesse K. Dubois, Auditor of Public Accounts of the State of Illinois, do hereby certify that the said R. F. Mason is authorized as an agent for the said Company to transact the business of Insurance in this State until the thirty-first day of January, in the year eighteen hundred and sixty-one, so far as he may be legally empowered so to do by said Company.
In Testimony whereof, I have hereunto subscribed my name and affixed the seal of my office, at Springfield, this 13th day of February, A. D. 1860.

MORTGAGE SALE.—Default having been made by Ferdinand E. Peebles and Joseph Perkins, in the payment of a portion of certain monies specified in two certain mortgage deeds executed by them on the sixth day of June, A. D. 1856; one of said mortgage deeds mortgaging to the undersigned in his capacity hereunder written, the south-west quarter, south of the Chicago and Rock Island railroad, of section No. four (4) in township No. thirty-three (33), north of range No. seven (7), east of the third principal meridian, situate in Grundy county, State of Illinois; mortgage recorded in the Recorder's office of said county in Book No. Two, page five hundred and nine. And the other of said mortgage deeds mortgaging to the undersigned, in like capacity, the west half of the southwest quarter of section thirty-four (34), in township thirty-four (34), north of range seven (7), east of the third principal meridian, in the county and State aforesaid, and which latter mortgage was recorded in said office in Book No. Two page five hundred and twelve.
Now, therefore, I, L. C. Paine Freer, Master in Chancery of Cook county and Special Commissioner for the purposes recited in said mortgages, will, in pursuance with the powers to me therein and thereby in me vested, sell at public auction for cash, to the highest bidder, at the north door of the Court House in the city of Chicago, county of Cook, and State of Illinois, on the fifth day of April, A. D. 1860, at ten o'clock in the forenoon of said day, said parcels of real estate, or so much and such portions thereof as may be necessary to make the balance of monies secured by the said mortgages respectively, with the costs and expenses of said sale. The lands in each mortgage are liable only for the monies thereby secured, and not for the monies secured by the other mortgage.

MONETARY.

TUESDAY EVENING, April 3.

Dullness still broods over the money market; but a few more such fine days must infuse more activity into all departments of trade. The icy fetters of the straits cannot long resist such warm genial breezes. Their embargo must soon be raised.

Exchange is ½ per cent. premium; but it shows signs of decided weakness. Some parties had more offered than they wanted to take. We should not be surprised to see a further decline within the next week.

Gold ½ per cent. premium and dull.

Money outside the banks is close, and collections "hard."

ST. LOUIS.—The demand for exchange on the East and South was large, dealers having no difficulty in disposing of all their supplies at 1½ premium on the East and 1½ on New Orleans. That at the Sub-Treasury does not go off rapidly, the supply of gold being so small. It is feared all the coin will be carried out of the country at the rate it is leaving.—*Democrat of yesterday.*

ST. LOUIS BANKS.—The weekly Bank statements of the St. Louis city Banks for the week ending March 31st, are as follows:

	Circulation.	Ex. Maturing.	Specie.
Merchants' Bank	[illegible]	[illegible]	[illegible]
Bank of St. Louis	[illegible]	[illegible]	[illegible]
Southern Bank	[illegible]	[illegible]	[illegible]
Mechanics' Bank	[illegible]	347,276	[illegible]
Exchange Bank	[illegible]	[illegible]	[illegible]
State Bank	14,780	1,516,367	[illegible]
Union Bank	82,975	147,?47	133,988
Total	[illegible]	[illegible]	$686,074
Last week	356,245	2,880,915	664,179
Increase			$21,895
Decrease	$16,355	$96,624	

There is a steady falling off in circulation and maturing exchange, but the banks have been strengthening themselves with some $22,000 more of coin, this week.

Statement of the Boatman's Saving Institution for the week ending 31st ult:

Coin	$171 [illegible]
Exchange matured and maturing	646,010 75

Statement of the condition of the German Savings Institution for the week ending March 31st, 1860:

Coin on hand	[illegible]
Coin subject to draft in N. York and other places	[illegible]
Missouri bank-notes	[illegible]
Exchange maturing	23 641 91

The Real Estate Savings Institution has $8,849 of coin, and $15,804 of Missouri bank notes, this evening.

CINCINNATI.—The *Gazette* of yesterday reports the Cincinnati money market easy. Exchange close and in active demand at 1½ prem.

NEW YORK.—The *Herald* of Saturday says:

Money was in rather more demand among the brokers to-day, in consequence of the increase of speculative business; but among the discount houses there was no change. We quote, as before, call loans, 5 per cent.; short first-class paper, 5; 4@6 months paper, 6; single names, 6@7; second-class paper, 8@10@12. The movement of money at the Sub-Treasury continues moderate; the receipts to day were $140,528, of which $105,000 was from duties; disbursements, $121,866; balance this evening, $8,465,328. The arrival of $155,110 in the Ariel last evening will help to swell the bank reserve still higher.

TUESDAY EVENING, April 3, 1860.

WEEKLY REVIEW—THE WEATHER, ETC.—During the week dry weather has generally prevailed. We have had a few showers of rain, but they have done little more than lay the dust. Throughout the entire West the want of rain is much felt, and until we have it vegetation cannot make much progress. The rivers are all falling rapidly. On the Mississippi, only boats of very light draught can pass over the lower rapids; while it is feared that navigation will impeded on the Illinois river.

Our advices from all parts of the interior are to the effect that spring work is progressing rapidly. The great bulk of the spring wheat, oats and barley, are already in the ground, and the land is being prepared to receive the corn. With regard to winter wheat, we have no advices giving any additional information; and it will not be known, probably, how much the crop is injured till we have April rains.

The receipts and shipments of produce of all kinds during the past week and since the 1st of January, will be found in the following comparative tables:—

There was a fair inquiry for Flour to-day, but buyers and sellers were about 10c apart, and the transactions were limited, at $4.70@5.00 for fair to choice Spring Extras. Wheat opened very firm, and holders refused to sell at yesterday's prices; but towards the close the market became easier and closed quiet, with sales of old receipts No. 2 Spring at 96@96½c, and fresh receipts at 98c in store. The receipts of Corn to-day amount to upwards of 18,000 bushels; and owing to this fact, buyers insisted on a decline, which was partially acceded to; but before the close a reaction took place, and the prices of yesterday were sustained—the sales being liberal at 45c for prime River Yellow afloat; 42½@43c for fresh receipts No. 1; 41c for old receipts No. 1; and 40c for new receipts Rejected. Oats were dull and heavy—the transactions being limited at 35c delivered. Rye was in better supply and 1@2c lower—80@82c being the range of sales. Barley quiet at 69@72c for good to prime. Hungarian Grass dull and 5@10c lower. Millet Seed in active demand and buoyant. Highwines quiet and unchanged.

There is nothing doing in freights, and the feeling among vessel owners is rather heavy, in view of an early opening of the Straits.

DUNKIRK OPEN.—Mr. Jacob Forsyth, agent of the N. Y. and Erie Railroad, showed us a dispatch which he received to-day, informing him that Dunkirk is again free of ice, and that boats have arrived and departed to-day.

THE STRAITS.—On the first page of to-day's paper will be found a communication from Mackinac, under date of March 21, which contains intelligence that would seem to indicate an early opening.

THE SAUT CANAL.—By a communication, which we print in another column, it will be seen that there is no prospect of repairs on the Saut canal being finished before the 1st of June.

CINCINNATI—March 31.—The *Commercial* of yesterday says:

No change is effected in the Grain market unless it be in Oats, which may be quoted at a decline of one cent per bushel—45c. Whisky is steady at 18½c. Daily movements of

No material change is observable in the Provision market. There is a good consumptive demand, under the influence of which holders are very firm, enough so to check operations to some extent, since orders are restricted or if discretionary are managed to try and effect concessions of an ⅛c on the prices of meats. The sales reported are small, amounting to 50 hhds Bacon Shoulders at 7½c; 50,000 lbs Bulk Sides averaging 40 lbs at 8½c; 100 hhds Bacon Sides at 9½c delivered at Madison, Ia.; in addition to which 100 tcs Lard were sold at 10½c.

NEW YORK—March 31.—Receipts, 3,592 bbls flour; 10,249 bu corn; 1,551 bu oats.

ST. LOUIS, March 31—Receipts by river 3,189 sks corn, 320 sks barley, 794 bbls flour, 2,956 sks oats, 4,014 sks wheat, 622 bbls whisky. By railroads, 1,122 bags corn, 411 bbls flour, 5,445 sks oats, 911 bags wheat. Wheat.—All grades steady, and best qualities firm. Sales of 420 bags good spring at 108@112c; 600 do prime and choice do 112½@115c; 240 do club 115c; 125 do poor fall 110c; 400 do common and fair fall 120@128c. Corn.—The difficulty in shipping continues, and buyers find sellers easier to treat with. The tendency is downward, and sales only moderate, as is usual the last day of the week. Sales comprise 200 bags, part damaged and part without bags, 40@41c; 1,400 do ordinary to good mixed, 44@47c; 2,500 do prime mixed, yellow and mixed white, 48@50c; 1,000 do prime yellow, 51@52c; 543 do choice white, part delivered, 54@56c, in new gunnies. Oats continue to decline. Sales of 1,450 bags fair and good, 45@47c; 130 do prime and heavy, 48@50c, bags included. Barley—A very limited business doing at previous rates. Sales of small lot poor spring at 70c, bags returned, and 275 do choice do at 87½c, bags included. Pork.—Holders are firmer, and for small lots obtained an advance of 25c. Sales of 180 bbls mess at $17.25. A small lot rumps at $12 ₩ bbl. Whisky.—The market was not active, and more offered than taken at 18½c. Sales included 400 bbls at that figure. Seeds—Very slow sale; only a small lot of timothy reported at $2,70; good timothy would sell, but there is none here.

Boston Market—March 30.

CORN EXCHANGE.—The receipts since yesterday have been 3140 bbls Flour, 4144 bu of Corn, 4050 do Oats, and 1600 Shorts. Demand for Flour only for small lots, with sales at $5 50 for common brands Western; $5.65@5 88½ for fancy; $6@6.25 for extras; and $6.62½@8 75 for superior. Southern Flour is quiet at $6@6 25 for fancy; $6 75@7.25 for extras; and $7.50@8.50 for superior. Corn is in moderate demand, with sales at 80@82c ₩ bu for Southern yellow, and 79@80c for white. Oats have been sold at 45@46½c ₩ bu for Northern and Canada. Rye 90c ₩ bu. PROVISIONS.—The sales of Pork have been at $15 50@16 for prime; $18.25@19 for mess; and $20@21 for clear, cash and 4 months. Beef ranges from $9@12.50 for Eastern and Western mess. Lard 11@11½c in bbls., and 12c and 12½ in kegs; and Smoked Hams 11@11½ per lb. Cash and 4 months.

STATEMENT OF FLOUR AND WHEAT IN STORE IN CANADA WEST.—From Messrs. Clarkson, Hunter & Co.'s Market Review we take the following statement of flour and wheat in store between Hamilton and Port Hope, including five ports on Lake Huron, March 17th:—

	Flour, bbls.	Wheat, bu
Toronto	48,015	228,842
Hamilton	20,000	25,000
Port Credit, Whitby, Oshawa, Darlington, Newcastle, Port Hope, and Port Granby	48,800	186,0?0
Storehouses on the line of the G. Western Railway, (estimated from observation)	50,000	100,000
Do Grand Trunk Do Do	30,000	150,000
Lake Huron Ports—Meaford, Owen Sound, Southampton, Goderich Bayfield		125,000
Total quantity in store	191,815	814,842

About half this quantity of wheat is Fall wheat. As regards future receipts of wheat, the general opinion seems to be, that there is about one-fourth of last year's crop in the hands of the farmer.

Weekly Review Chicago Market.

TUESDAY EVENING, April 3.

FREIGHTS—LAKE FREIGHTS—Nothing has been done during the past week in freights, and there is but little disposition to make engagements on the part of shippers. Vessels are offered at 10c for corn to Buffalo, and 14c to Oswego, but at the close the feeling is downward. CANAL—Down freights are not so plenty, and lumber is taken at $4.50. Up freights rule low—5@6c being the range from the river towns for Corn. RAILROADS—Flour is carried to New Orleans via Cairo and the Mississippi River, at 80c; to St. Louis, all rail, 48c; to N. Y., all rail, $1.10; do via Lake Erie, 91c; to Pittsburgh, 66c. Corn to New York, all rail, 30c per bushel; to Albany, all rail, 29c per bushel. Provisions to New York, all rail, 50c; do via Lake Erie, 44c; to Boston, all rail, 55c; do via Lake Erie, 50c.

FLOUR—Receipts last week, 6,220 brls; shipped last week, 7,252 brls. The market during the past week has been heavy and inactive, but there has been little if any change in prices. The Southern demand is very light, and the transactions of the week have been mainly for Pittsburgh. For the East the inquiry is still very limited, and no change is expected in this particular till navigation opens. Holders, however, have not pressed their stocks on the market, and quite a number have not offered them for sale at all. Winter Wheat brands are almost entirely neglected. RYE FLOUR is in limited request for city use and sales range from $4.12½@4.37½. CORN MEAL is dull and almost entire nominal at $16.00@17.00 for unbolted, and $18@19 for bolted.

TO-DAY the sales of Flour were as follows: 200 brls "Watertown" Spring extra at $4.80 del; 500 brls "Buckeye" do at $4.70 del; 50 brls "Mount Vernon" do at $5.00 del; 100 brls Red Winter extra at $5.00 del.

WHEAT—Receipts last week, 31,138 bu; shipped, 19,492 bu. The light receipts of the week has caused a quiet market, with but little variation in prices. The dullness in Flour has kept millers out of the market, while for shipment the inquiry has been light, and lots on track have not met with such ready sales. Among Eastern shippers and speculators there is little or no desire to operate at present prices, and the demand by the latter has been chiefly to fill contracts. Red Winter Wheat has been in limited demand, and the receipts trifling, with sales of small lots at $1.12½@$1.13 for fair to good. No White Winter offering, and little or no demand for it.

TO-DAY the Wheat market opened firm, but closed weak. Sales were:—4,800 bu old receipts No. 2 Spring at 96½c in store; 2,000 bu do at 96c in store; 2,600 bu fresh receipts No. 2 at 98c in store. Sales on track were as follows:—700 bu choice Club at $1.03 on track; 300 bu Club at $1.05 on track; 800 bu good Spring by sample at $1.02 on track; 700 bu No. 2 at $1.00 on track.

CORN—Receipts last week, 174,704 bu. Shipped, 34,081 bu. The downward tendency in the corn market, noticed a week since, has been somewhat checked by the light receipts, and a good shipping demand for New York and Eastern Pennsylvania. There has, however, been no advance, and prices to-day, under a supply during the past 24 hours of 86,000 bushels, opened ½@¾c lower than yesterday, but closed firm. Buyers are anxious to invest; but as the Straits were not expected to be open for about two weeks yet, and as much heavier receipts are anticipated during the present and the next week from the Illinois River, on account of fears lest the water falls too low for navigation, they are holding off for a decline to take place as the accumulation increases. Holders, however, are generally firm, and stocks are not pressed on the market.

TO-DAY the transactions were as follows:—5000 bu prime River yellow at 45c afloat; 5,000 bu fresh receipts No. 1 at 43½c in store; 6,216 bu No. 1 (receipts dated 20th to 27th March) at 42½c in store; 2,000 bu fresh receipts do at 43½c in store; 4,000 bu do at 43c in store; 5,000 bu do for delivery on the 15th April at 43c in store; 10,000 bu do for delivery on the 15th of June at 50c f. o. b.; 1,000 bu new receipts No. 1 at 40c in store; 1,000 do at 41c on track.

OATS—Receipts last week, 25,032 bu; shipped, 23,400 bu. The receipts during the week have been more liberal, and under dull advices from St. Louis and Cincinnati, a decline of 3c has been experienced since the date of our last weekly review—the market at the close having been extremely dull and heavy, with but a limited shipping inquiry. TO-DAY 300 bags were sold at 35c del.

RYE—Receipts last week 1729 bu; shipped, 315 bu. The demand has been rather limited during the past week, and although the supply has been trifling, prices have declined 4@5c. TO-DAY the sales were:—43 bu No. 1 at 80c on track; 14 bags do at 82c on track.

BARLEY—Receipts last week 8,487 bu; shipped 1378 bu. The market during the week has been steady, and the demand fair, with sales of No 1 at 68@70c on track, and No 2 at 60@63c. TO-DAY the sales were:—142 bags No 1 at 69c on track; 75 bags prime at 72c on track.

ALCOHOL—Quiet at 42@44c per gal.

BEANS—The market is well stocked, and the demand very limited—sales of the week being chiefly to the city trade at 80c@$1 for fair to choice.

BROOM CORN—Shipped last week, 8,900 lbs. The light receipts render it difficult to give accurate quotations. There is a good demand, however, and good sound corn, well packed, will command $100@130 per ton.

BUTTER—Receipts last week, 24,511 lbs; shipped, 7,639 lbs. The market is glutted with roll and firkin butter, and under a limited shipping inquiry, it is dull and flat.—Firkin, [illegible]; Roll, [illegible]; Dairy, 10@11c.

CHEESE—There is a fair inquiry and the market has advanced. N. Y., Hamburgh, 11@12c; Western Reserve, 10@11c.

GROCERIES—The Eastern and Southern markets are tending upward with a better demand. The following are the closing quotations for ten hogsheads and over:—New Orleans—Inferior to Common, 5½@6½c; Common to Good, 6½@7½c; Fair to fully fair, 7½@8½c; Prime, 8½c; White Coffee, 9½@10½c; Porto Rico, 7½@9½c; Cuba, 7@7½c; N. Y. Refined White Coffee, 10½c; N. Y. Crushed, Powdered and Granulated, 10½@11½c. MOLASSES—N. Y. Sugar House, 34@37c; Portland, 32@33c; Reboiled, 42½@45c; Plantation, 48@50c; N. Y. Syrups, 34@46c; Golden, 48@54c. COFFEE—Prices are still advancing in the east. Rio, 12½@14½c; Maracaibo 13@13½c; Santa, 13@14½c; Laguayra, 13@14½c; O. G. Java, 16@17½c; Mocha, 16½@18c. RICE—4½@5½c. SPICES—Cassia, 27c; Pepper, 10½c; Alspice, 8½c; Cloves, 23@25c.

HAY—The supply continues good and the market dull and heavy, with but little inquiry for shipment. Several lots of pressed Timothy were received here during the week by railroad, and were sold at $9.00@9.50 on track. There is some inquiry for shipment to New Orleans, but the difficulty of finding freight room on the Mississippi deters operators. The following are the quotations of Frisbie Brothers, No. 45 Market street—Upland Prairie, loose, $5 00@6.00 ₩ ton; Do. Pressed $6.50@7.50; Timothy, loose, $9.00@10.00; Do. Pressed, $11 50@12.50.

The demand for lumber during the week has been less active, St. Louis dealers having filled all their orders for the present. There has been, however, a limited demand for the Missouri River, and St. Joseph dealers have bought and shipped more freely than usual. From the Illinois River the demand is still trifling; and as country dealers are expecting lower prices, they are holding off till our receipts are heavier.

The receipts during the past week have been trifling, but since Sunday quite a large amount has been received. Most of the lumber is from White Lake, Grand River, and adjacent parts; but we have received one cargo from Travers Bay, per schr *Grapeshot*. The demand for cargoes is rather better than at the date of our last review, owing to an inquiry by country dealers. The following are the sales reported:

Cargo of schr Gazelle, from Muskegon, at $3.50, 6.50, 13.00, and $10 00—time.

Cargo of schr Speed, from Muskegon, at $3.50 and $7.00—cash.

Cargo of schr Blue Bell, from Grand River, at $3.50 and $7.00—time.

Cargo of schr Josephine Dresden, from White Lake, at $1.50 and $7.00—time.

Cargo of schr William Tell, from Grand River, on p. t.

The news from the lumber regions is unimportant, except that the want of rain is felt in getting logs down the streams. The manufacturers, as a general thing, are laboring under the impression that this fact will seriously affect the receipts of the present year; but it is too soon to speculate on any such matter. There are logs enough cut to supply us with at least 75,000,000 feet more lumber than last year, and if there is a demand for the lumber, it will probably be forthcoming.

In Shingles there has been more activity, and the market is steady. The following cargoes, and parts of cargoes, were sold:—Cargo of schr Foster, from Muskegon, A 1, at $2.25; cargo of A shingles, from White Lake, per schr Mermaid, at $2.05; cargo of shingles from Kalamazoo, at $1.75 for No 1, and $2 00 for A; cargo of sawed and shaved, from White Lake, per schr Honest John, at $1.87½.

The following are the closing quotations of lumber lath, &c.:

Commercial Circulars by the Arabia.

[From Bigland, Athya & Co.'s Circular.]

BREADSTUFFS.—A slight improvement in the London market on Monday has been followed up by most of the country markets held since, which generally report an advance of 1s per qr. on wheat. At our market on Tuesday, wheat was in better demand than of late, at extreme prices. Flour was more firmly held, but met little attention. Indian corn was in better request, and 6d per quarter dearer than on Friday. Great firmness has characterised the trade since Tuesday, and at our market to-day there was a good demand for wheat, at an advance of 1d to 2d per cental. Flour was held with great firmness, and may be quoted 6d per brl dearer, but the demand is by no means active. Indian corn sold in retail at Tuesday's prices.

PROVISIONS.—A large business has been done in Beef, without material change in prices, but as holders meet buyers very freely, the latter have rather the advantage. Pork is extremely dull, and to effect sales lower prices would have to be taken. Bacon, without any activity in the demand, goes steadily into consumption, at full prices. There is a good demand for the finest qualities of Cheese, but inferior is difficult to sell.

LARD.—The late advance has quite checked the demand, and the moderate sales of the week have been at a decline of fully 1s per cwt. Tallow, with an entire cessation of demand, has declined fully 1s 6d per cwt., and is very unsettled at the close, with a still downward tendency.

[From Richardson, Spence & Co.'s Circular.]

BREADSTUFFS.—The trade throughout the country this week has shown a little more animation, but the continued liberal supply from farmers keeps off the demand for foreign wheat; and in this market the business done has not been large, although prices have ruled firm.

On Tuesday wheat was quiet, but steady at previous prices. Flour firm, but with little doing. Indian Corn slow of sale, without change in value.

At to-day's market a decidedly improved feeling was manifested, and in Wheat a moderate business was done at an advance of 1d ₩ cental. Flour unchanged in value, but in limited sale. Indian Corn continues dull at 32s@32s 6d ₩ quarter for European Yellow. White American is very small in request, at 37s@37s 6d ₩ quarter. We quote wheat: Red Western, 9s@10s 2d; Southern, 10s@10s 7d; White, 10s 6d@12s ₩ 100 lbs. Flour, superfine, 25@26s; extra Western, 26s@28s; Ohio, 27s@29s ₩ brl. Indian Corn, Yellow, 32s@32s 6d ₩ 480 lbs.

[From Stolterfoht and Son's Circular.]

BREADSTUFFS.—The weather continues to be ungenial and vegetation makes no progress. The sowing of grain as well as of grass seeds is much interfered with. The country markets are firm but not active. Although there was not much business done at Tuesday's market, yet there was a firmer tone for Wheat and Flour. Indian Corn also firm. There was a good feeling at to-day's market, and both speculators and the trade bought more freely at the advance from last market day of 1@2d per cental on Wheat (Chicago and Milwaukee 10d@1s 2d per cental), and 3@6d per brl and sack on Flour, (Extra Western 29s 3d.) Indian Corn was in little demand and not quite so well sold. Some of our factors finding the market against them have gone over to Wakefield to purchase.

MARINE NEWS.

TUESDAY EVENING, April 3.

Weather warm and pleasant. Vessels passing Detroit April 2d and 3d:—UP—None. DOWN—Brig Walbridge; schrs. Industry, Freeman. Wind at 2 P. M., east; cool.

COLLISION.—The schooner Whirlwind, while being moved this morning, ran her jib-boom into the tug which is being built on the dock west of the Wells street bridge, breaking her shoe and several timbers.

FOR THE LOWER LAKES.—The propellers Michigan and Buckeye leave here on Saturday for Oswego and Ogdensburgh. They will carry only a limited amount of freights.

SALE OF AMERICAN TRANSPORTATION BOATS.—The Trustees of the American Transportation Company are now seeking to dispose of the propellers and canal boats which were bid on at the recent sale. The following propellers have already been sold. The New England, purchased by a Canada house for the Lake Ontario trade; the Potomac purchased by F. Lee, Esq., and intended for the Peoples Line during the coming season; the Iowa, bought by E. T. Evans, Esq., and the Allegheny, by a Chicago house, who will put her on the upper lakes.

ICE IN BUFFALO AND DUNKIRK.—On Saturday, the lower end of the lake was still filled with ice, and not only Buffalo but Dunkirk continued inaccessible by water.

NEWS FROM ABOVE.—The Detroit Tribune says:

The steamer Columbia, Capt. Cole, arrived from Saginaw yesterday with a fair load of freight, including 300 bbl fish. She got into the mouth of Thunder Bay River, but that stream is still covered with solid ice eighteen inches thick. On Thursday, a large quantity of floating ice was seen off Thunder Bay, but the wind changing, it was again driven up the lake.

GALE.—Capt. Ward reports a heavy gale on Lake Huron Saturday night and Sunday. The Forester was lying at Forestville on Saturday night, but had to run into the river for refuge. Yesterday three vessels, upward bound, put back to Port Huron.—(Detroit Tribune, 2d.

SALE.—The bark Fame has been purchased by E. W. Hudson, Esq., of Parks & McLeod, at Amherstburg and has been towed up to this port by the steamer Pearl preparatory to undergoing thorough repairs. The price paid we have not learned.—[Det. Trib. 2d.

SAFE.—The schooner Harlequin, reported ashore near the mouth of the river has got off. We have not learned the extent of her damage.—Det. Trib. 2d.

AGROUND.—We learn that the schooner Free Trader is high and dry at the Flats, inside the light-house.—Detroit Tribune, 2d.

ICE ON NORTH SIDE LAKE ERIE.—The Cleveland *Leader* of Saturday contains the following:

We are under obligations to Capt. A. C. Keating, of this city, for permission to publish the following notes addressed to him touching the ice on the Canada side and the Welland Canal:

PORT COLBORNE, March 24, 1860.

I have to inform you that two vessels cleared from Grand River to-day, from which port (Maitland) navigation may be said to be opened westward. There is about eight, or nearly eight feet of water in feeders. Judging from the weather and appearances, this harbor will not be open for eight or ten days yet.

Yours faithfully,
J. M. GORDON.

WELLAND CANAL OFFICE, ST. CATHERINES, March 27, 1860.

The Superintendent writes from Port Colborne and requests me to inform you that Port Maitland and harbor is open, two vessels having left there yesterday for the upper part of Lake Erie. No ice above Port Maitland.

The Welland Canal will be ready for the passage of vessels on the 1st of April. Ever truly yours, THOS. ADAMS.

Capt. Keating has intelligence from the lower end of the lake that the ice is still unbroken, that it is thicker than known for several years, and that the 20th of April is the earliest through opening anticipated.

Spalding's Prepared Glue!
"A Stitch in Time saves Nine."
ECONOMY!
Dispatch!
Save the Pieces!

As accidents will happen even in well regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Crockery, Toys, &c.

SPALDING'S PREPARED GLUE meets all emergencies, and no household can afford to be without it. It is always ready and up to the sticking point. There is no longer a necessity for limping chairs, splintered veneers, headless dolls, and broken cradles. It is just the article for cone, shell and other ornamental work, so popular with ladies of refinement and taste.

This admirable preparation is used cold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet-maker's Glue. It may be used in the place of ordinary mucilage, being vastly more adhesive.

"USEFUL IN EVERY HOUSE."

N.B.—A Brush accompanies each bottle.

Price, 25 Cents.

THIRTY-SIXTH CONGRESS—FIRST SESSION.

SENATE.

WASHINGTON, April 3.

On motion of Mr. Mason the bill providing for the adjudication of the claims of the Rhode Island Company against Paraguay, by the appointment of a Commissioner by each government, to sit in Washington for three months, in accordance with treaty stipulations, was taken up and passed.

Mr. Johnson of Tenn. wanted the Homestead bill taken up and pressed to a final vote. It was a very important measure.

The Indian Appropriation bill came up and the amendments of the Senate adhered to, after which the bill was postponed till Thursday.

The House Homestead bill was taken up, the pending amendment being the Senate bill.

Mr. Fitch offered an amendment that all lands that came under the provisions of this bill should be only those subject to private entry at the passage of the law.

Mr. Wilkinson made a speech in favor of the House bill. Adjourned.

HOUSE.—Mr. McClernand proceeded to sustain his assertion made yesterday, that there was no instance in which Congress had enacted a special penal code to operate in the organized Territories. The act of 1790 was general in its application and extended to treason and other offences against the United States. Congress by enacting a Territorial Government had delegated certain powers, so that the criminal became amenable to the local law.

During a colloquy between Farnsworth, and Clark of Mo., the former said Jno. Wesley spoke of slavery as the "sum of all villainies."

Mr. Jenkins inquired—Do you say so?

Mr. Farnsworth was very much of that opinion.

Mr. Jenkins—Then you declare a lie.

Mr. Farnsworth—I am not in the habit of descending into cess-pools to throw dirt at blackguards.

Mr. Jenkins (in his seat) was understood to say—I can't receive that as an insult.

The bill to suppress polygamy in Utah was debated at length.

Mr. McClernand advanced the proposition to divide Utah between Pike's Peak and Nevada. No vote was taken. Adjourned.

From Washington.

WASHINGTON, April 2.—At a meeting of the Pacific Railroad Committee, Mr. Phelps submitted resolutions for a single route on the 38th parallel, with the condition that it was not accepted, the road should not go south of the 25th or north of the 41st. Mr. Kellogg proposed an amendment, embodying Mr. Curtis's proposition substantially as the basis, with some modifications. Mr. Winter Davis offered a proposition, laying down three points as descriptive of the general direction of a route, viz; St. Joseph, Bridger Pass and San Francisco, with the outline of a bill to incorporate a Company to build a road. After discussing these various plans, the Committee adjourned till to-morrow evening on Mr. Fenton's motion, with the understanding that a decisive vote should then be taken on a route, form of bill, and general plan.

Despatches have been received from Capt. Jarvis, at the Navy Department, enclosing communications addressed to him by the commanding officers of the French and Spanish ships-of-war at Vera Cruz, inquiring under what law of nations he captured the Mexican steamers. He declined giving any reply, but referred them to the authorities here for an answer. This question is likely to prove embarrassing hereafter, because the Administration now asserts as a right what was emphatically denied when claimed by England in the Gulf two years ago.

The following is the bill for the punishment and suppression of Polygamy now under consideration in the House: *Bill to punish and prevent the practice of Polygamy in the Territories of the United States and other places, and disapproving and annulling certain acts of the Legislative Assembly of the Territory of Utah,* and which sets forth, *Whereas,* it is admitted that Polygamy is permitted by the municipal regulations of one of the Territories of this Union, and sought to be justified on the ground that this abomination in a Christian country is a religious right by the inhabitants of said Territory, and *whereas* no principle of self-government or citizen sovereignty can require or justify the practice of such moral polution, therefore,

WASHINGTON, April 3.—Chas. E. Sinclair has resigned his position as Associate Judge of the United States Supreme Court for Utah. Judge Cradlebaugh, of that Territory, is now in Washington. It is not known that any of the Federal officers, excepting Gov. Cumming and Surveyor General Stambaugh, are now in Utah.

The House Post Office Committee have nearly unanimously agreed to recommend the restoration of the mail to the steamship Isabel, and the Committee of Ways and Means will, there is little if any doubt, report an appropriation of $50,000 for her mail services between Charleston and Key West, in addition to the ocean postage between Havana and Key West.

Senator Hunter has emphatically denied the truth of the dispatch from St. Louis charging that he had written a letter to Springfield, Ill., urging the Cook delegates to attend the Charleston Convention, and intimating that their expenses will be paid.

If the proposed amendments to the Pacific Telegraph bill be adopted by the House there is reason to believe the line will not be built for years to come, as the capital to ensure its construction will not be supplied. It will cost probably from $800,000 to $1,000,000, besides large sums to keep it in working order.

Attempt to Denounce Cassius M. Clay in Kentucky.

LOUISVILLE, April 3.—Cassius M. Clay published an appeal to the people of Madison county against the revolutionary committee of that county, from whom he escaped denouncement by a small majority, last Tuesday, and who were to consider his case again yesterday. He says be advised Hanson and associates to leave; that he has discountenanced the radicals, but if Republicans are attacked they will defend themselves. His appeal embraces a letter, signed Frank Bland and George Haley, in which they say the troubles did not originate about Hanson, but because George West, sick with consumption, was maltreated, and West's daughter insulted with gross language. Clay concludes: "You may be strong enough to overpower me. You cannot drive me from the duty which I owe to myself, to my friends, to my country. If I fall I shall not fall in vain, and it will be enough for all long cherished associations if per chance my blood shall atone for the wrongs of my race, and if these States shall at last be free." Private advices intimate apprehensions of further trouble.

St Louis Agricultural Society.

ST. LOUIS, March 30.—The St. Louis Agricultural and Mechanical Association offers $20,000 in premiums for the next fair. It is probable 4 or 5000 more in private awards will be added. A citizens' premium of $1,500 will be given for the best stallion. A direct importation from Belgium has already been received for exhibition, and others from different parts of Europe are expected. No effort will be spared to make their fair excel all others.

The Arizona correspondent of the *Republican* says that the people of the western part of the Territory are averse to the formation of a provincial goverement, and have directed the delegates to the Convention to be held at Tuason on April 2d to oppose such a movement. Indian depredations are continued on a large scale throughout the Territory.

Pennsylvania Legislature.

HARRISBURG, April 3.—This morning the Senate and House reconsidered the vote on the General Apprropriation Bill, and recommitted it to a Conference Committee. The Committee reported the bill, which the House adopted. The bill to incorporate the South Pittsburg Coal Co. was passed over the Governor's veto.

Mr. Palmer, opposition, of Schuylkill Co., was elected Speaker of the Senate for the next term.

Both Houses have adjourned *sine die.* The appropriation bill was previously signed by the Governor.

The "Golden Circle" Likely to be Broken—Gen. Bickley Denounced as an Imposter by Two of the "Knights."

NEW ORLEANS, April 3d.—Two subordinate Officers of the Knights of the Golden Cross publish a card denouncing Gen. Bickley, Commander in Chief, as an imposter. About 1500 men are enrolled here under the representation that there was plenty of money to assist Juarez in Mexico, where promises of land grants, etc., induced many to join; but there is no evidence as yet of any bona fide movement.

The New York House-Painters.

NEW YORK, April 3.—A mass meeting of the New York Journeymen House-painters was held at Military Hall, in the Bowery, last evening. Seventeen shops were represented as paying two dollars per day. Several speeches were made in favor of a more perfect system of organization for the protection of the right of labor, and a number of new members were received.

Correction.

NEW YORK, April 3.—We are informed that a mistake has been made in stating the tariff on messages to California, by the overland express, from St. Joseph. The rate for ten words was correctly given, but that for each additional word is 30 instead of 20 cents.

Injunctions Granted.

PATERSON, N. J., April 3.—Preliminary injunctions were granted to-day by Judge Dickerson, against Dunham and Staats, and John Smalley in favor of Howard and others, for infringements on Ketchum's patents for Harvesting machines.

The Democrats Defeated in Dubuque.

DUBUQUE, April 3—The municipal election yesterday passed off quietly. The People's party elected the Mayor, Marshal, and five Councilmen. The Democrats elected one Councilman, and balance of city officers.

Trial of Slave Traders.

BOSTON, April 3.—Morgan, Chamberlin and Dunning, late officers of the Bark Orion, an alleged slaver are held in $5,000 bail each for trial. The examination will probably take place to-day.

The Prince of Wales.

TORONTO, C. W., April 3.—It was officially announced in Parliament last night, that the Prince of Wales would not leave England on his visit to America before the 10th of July.

The Spray Murderer Committed.

NEW YORK, April 3d.—Jackalow, the Chinaman charged with the murder and robbery on the schooner Spray, has been committed for trial.

Fire at Waukegan.

WAUKEGAN, Ill. April 3.—A fire last night, burned Case & Ball's warehouse, with 9,000 bushels oats, 3,000 bushels wheat, and 300 brls salt. Loss $7,000.

CONNECTICUT ELECTION.

BUCKINGHAM'S MAJORITY 571.

Legislature Republican by Nearly Two to One.

NEW HAVEN, April 3.—Complete returns show the election of Buckingham, Republican for Governor, by 571 majority. The Representatives stand 142 Republicans to 89 Democrats, and the Senators 13 Republicans to 7 Democrats. One District is doubtful.

Milwaukee Election—Democratic Mayor, Republican Treasurer Elected.

MILWAUKEE, 9:30 P. M., March 3.—Lynde, Democratic candidate for Mayor, is elected by about 1,000 majority. The Democrats have also elected Comptroller and City Attorney by about the same majority. Republicans elect City Treasurer by from 200 to 400 majority. No returns yet for Judge.

Cincinnati Election.

CINCINNATI, April 3.—At the election held yesterday, for City and Ward officers, the Democrats elected their entire ticket by an average majority of 700. The Democrats elect 9 Councilmen, and the Republicans 8.

The Kentucky Military Institute near Frankfort was partially destroyed by fire Friday night, together with the Superintendent's residence.

Indiana Town Elections—Large Republican Gains.

LAFAYETTE, April 3.—The Lafayette *Courier* of this afternoon has returns of township elections from various counties in this State, indicating large Republican gains.

Handsome Victory in Toledo.

TOLEDO, April 3d.—At the municipal election yesterday, the Republican ticket, except one Councilman, one Assessor, and one Constable, was elected. Average majority, 170.

Democracy Wiped Out.!

SCHENECTADY, April 3d.—Benjamin F. Potter, Republican, was to day elected Mayor by 400 majority over the Democratic candidate.

THE LARGE, FIRST CLASS, STEAMBOAT PLANET, With her TACKLE AND APPAREL,
To be sold at Public Auction in the City of Chicago, on
Thursday, April 19, 1860.

This fine Steamboat was built at Newport in 1855, by Captain E. B. Ward, at a cost of $120,000, and furnished and equipped in a superior manner, as one of the best boats on the Lakes. She has scarcely seen two years service, having been laid up for want of business on her present route during the years 1858 and 1859, and is well kept and in good condition, requiring but little preparation and small expense to put her in complete trim for sailing.

PASSENGER ACCOMMODATIONS.
She is fitted up with 77 elegant State-rooms, of three berths each, and with permanent cabin and extra berths for the comfortable accommodation of 500 passengers.

FREIGHT CAPACITY.
Her capacity for freight is very ample, carrying about 4,500 barrels bulk and fully equal to the requirements of a heavy traffic.

BOILERS, ENGINES, &c.
She has two low-pressure cylindrical boilers 24 feet long by 10 feet in diameter, and a low-pressure engine, with 62 inch cylinders and 10 feet stroke, with forcing and fire forcing pumps, with a supplementary pony engine. Also. life-boats, life preservers, and floats, as the requisite appointments of a first class steamer.

DIMENSIONS.
Her dimensions, as per enrollment, are as follows: Length 26[illegible] feet; breadth 32 1-2 feet; depth 13 6-12 feet; and is 1,153 tons burthen.

The condition and value of this Steamer will be better understood by stating that at the present time she is rated by the underwriters as A No 2 vessel and valued by them at $60,000. Owing to the general depression of all kinds of vessel property on the Lake, it is expected that this boat will be sold at a low figure, and a rare opportunity is offered to the purchaser. The terms of payment will be as follows: $5,000 cash on the day of sale and the balance in first class secured paper, at two, four, and six months, or will receive any of the Bonds, Notes, or other indebtedness of the Chicago & Milwaukee Railroad Company in payment on day of sale.

The steamer, with all her tackle and furniture on board, will be sold at her berth, in the North Branch of Chicago River, near Chicago Avenue Bridge, in the city of Chicago, on Thursday, April 19th, 1860, at 1 P. M. Further information can be obtained, or opportunity offered to examine the boat, by addressing the undersigned.
Chicago, March 30th, 1860. M. L. SYKES, Jr., Agent.

STEAMBOAT CITY OF CLEVELAND FOR SALE.—The Steamer City of Cleveland was built by Bidwell, Banta & Co., in the year 1857, and is of seven hundred and eighty-eight tons burthen, or thereabouts.

This Steamer has ample passenger accommodations, and is well furnished and equipped as a first-class passenger boat; her capacity for freight and passengers is fully equal (if not superior) to any steamer on the Lakes of her tonnage, and is a staunch first-class sea boat.

This boat will be sold on very favorable terms, both as to price and terms of payment, and to parties desiring to purchase a Steamboat a rare opportunity is offered. A full and perfect title will be guaranteed to the purchaser. For further particulars inquire of
PASCAL P. PRATT,
